Hi Adam,

This is second email with attachments are also references for Phase II ESA work.

Note that all the file names starting with "1-" designated as first round test, and files names starting with "2-"designed second round testing.

There will be another email, as the file is too large to send it here.

Thanks,

Stephen Suen, Architect, Alberta Association of Architects, Life Member; LEED AP

Subject: Tulita: 4 areas of services project tender (1 of 2)

Hi Adam,

We have the project work that is including 4 areas of services for the Tulita project, please review:

1. Estimate is $160,000, so I think we will post on buyandsell for public tender for consultant services.
2. Attached is a draft TOR copy, it is also being reviewed by field unit, when it will be finalized before it sent for translation.
3. Minister Chinna letter attached, it stated that all workers must be NWT territory (note #7).
4. Please review CLAC in TOR section 6.2, maybe we will remove from TOR if you have it the contracting front end, so there is no confusion.
5. "GEOTECHNICAL SITE INVESTIGATION GUIDELINES FOR BUILDING FOUNDATIONS IN PERMAFROST" attachment is also a reference document for the Geotechnical service
6. "Wood Phase One Report - Lots 9-1, 9-2 and 9-3, Plan 1074, Tulita" is reference for phase II ESA

I will forward you more reference documents in the next email.

Thanks,

Stephen Suen, Architect, Alberta Association of Architects, Life Member; LEED AP
