This amendment is created to answer questions from bidders.

QUESTIONS AND ANSWERS

Q1) Is a tethered flatbed option acceptable?

A1) No, a tethered device is not acceptable.

Q2) The minimum ADF speed has been increased to 60 pages per minute. Is there a minimum scanning speed for the flatbed?

A2) No, there is no minimum scanning speed for the flatbed.

Q3) We received the amendment through MERX. My technical and competitive analysts have reviewed the changes and unfortunately, the below point will again eliminate everyone but Fujitsu. Fujitsu is the only manufacturer that makes 1) a scanner with a swivel ADF 2) a scanner with a central loading ADF and flatbed combo.

A3) As indicated in the amendment, CIPO is looking for a scanner where if the ADF is side fed it must be able to be swiveled left or right OR (if it is not side feed) that it be central front feed OR it be central top feed. CIPO is NOT specifying that only a swivel ADF is acceptable.

Q4) Flatbed and an automatic document feeder (ADF). If the ADF is loaded from the side, it must be able to swivel so that it can be loaded from either the left side or the right side. Otherwise, the ADF must be a central front loading or central top loading ADF.

Do you know what the justification for this specific "front loading" scanner is? This doesn't make sense as either way (a left or right side load vs. a central load) the person using it would have to stand up to load the documents. It's puzzling my team as we've never seen a requirement like this so we're just interested to know so we can pass the information to our Engineering teams.

A4) As indicated in the amendment, CIPO is looking for a scanner where if the ADF is side fed it must be able to be swiveled left or right OR (if it is not side feed) that it be central front feed OR it be central top feed. CIPO is NOT specifying that only a swivel ADF is acceptable. Due to office size and ergonomics, it's for space compatibility. Some offices are configured to have right side loaders and some are left side. Central top loaders can be installed in all offices.

ALL OTHER TERMS AND CONDITIONS OF THE RFP REMAIN UNCHANGED.
