Solicitation Amendment 002 is raised to provide potential bidders with the following Questions and Answers:

Question 1: Annex A / General requirements #12 - Is there more information for the capture arm mounting bracket? Size of plate/bracket, size of holes, dimension of hose?

Answer 1: The bidder must come up with their own design to install an articulated arm on the table, allowing full coverage of the table surface (42" X 72") with a 4" diameter collection system.

Question 2: Annex A / General requirements #10.3 - More clarification needed for this design requirement. Is it a removable metal shield, hinged/folding.? 3 sides required for shielding?

Answer 2: A spark shield for the welding downdraft table is not required. What is required is a spark arrestor to protect the table against static electricity sparking and a means to ground the table unit to earth electrically with a copper grounding strap.
