**CORRECTIONAL SERVICE CANADA
INMATE PURCHASING PLAN
DRAFT STATEMENT OF WORK**

INTRODUCTION

Overview of Correctional Service Canada

Correctional Service Canada (CSC) is an agency within the portfolio of the Minister of Public Safety. The portfolio brings together key federal government organizations including the Royal Canadian Mounted Police, the Parole Board of Canada, the Canada Border Services Agency, the Canadian Security Intelligence Service, and three review bodies.

CSC contributes to public safety through the custody and reintegration of offenders. More specifically, CSC is responsible for administering court-imposed sentences of two years or more. This also includes the custodial and community supervision of offenders with Long Term Supervision Orders (LTSOs) (supervision for up to 10 years). CSC is currently responsible for approximately 15,000 inmates in custody and 8,000 offenders actively supervised in the community.

CSC has a presence from coast to coast, in large urban centres with increasingly diverse populations, to more remote Inuit communities across the North. CSC manages institutions, treatment centres, four Aboriginal healing lodges, community correctional centres and parole offices. In addition, CSC has one national headquarters and five regional headquarters that provide management and administrative support.

Submission of Requested Information

All requested information must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by electronic mail to PWGSC will not be accepted.

Current Purchasing Practices for Inmates

Inmates are provided, as per legislation, with the essential necessities when they arrive at an institution. They can also have personal items sent in from the community during a specific time period at the beginning of their sentence. Subsequently, inmates can purchase perishable items, hygiene items and other sundries at their institutional canteen. All other purchases must be made from outside suppliers. These purchases are subject to approval to ensure that the items do not

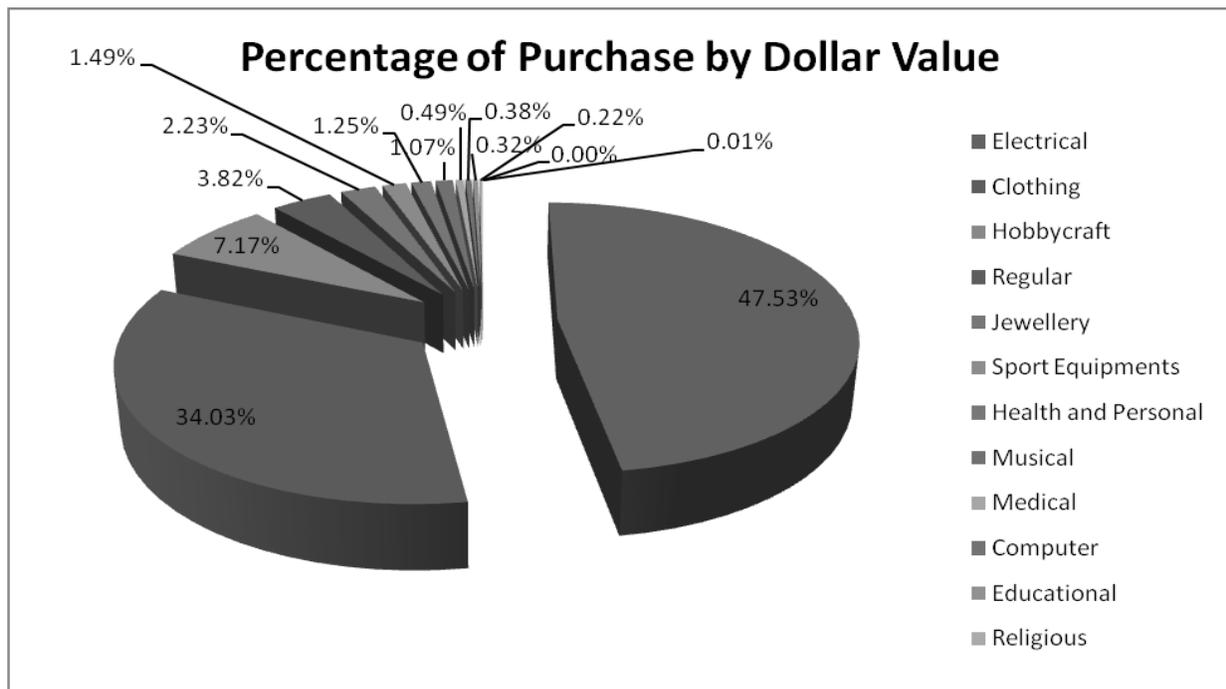

pose security or fire safety concerns, are in-line with the inmate's correctional plan and are within the parameters of inmate spending. Inmates pay for their purchases in full and can have up to \$1500 worth of personal effects.

CSC has a duty to ensure the safety and security of its staff, institutions and surrounding communities. Therefore, all goods entering the institution are searched to identify any attempts to introduce contraband or unauthorized objects into the institutions.

Inmates purchase a variety of items over the course of their sentence, mostly in the following categories 1. Electronics and related items; 2. Clothing and footwear; 3. Hobby craft items; 4. Sporting equipment; 5. Non-essential health and personal items; and 6. Other miscellaneous goods such as books, plastic containers and office supplies.

Inmates spend the most on electronics and associated items, followed by clothing and footwear. Most inmates are required to wear institutional clothing during working and programming hours but they are permitted to wear their own clothes in the evenings and on weekends. Women, minimum-security male inmates and Aboriginal inmates at Healing Lodges are allowed to wear their own clothing throughout the day, every day.

In fiscal year 2010-11, inmates spent an estimated \$4.5 million on personal property. The chart below indicates the percentage of purchases (based on dollar value) by category of goods during that same one year period.

***It should be noted that the category above entitled "electrical" includes items such as televisions, desk fans, headphones, audio CDs, radio alarm clocks. The "regular" category includes water bottles, plastic containers and office supplies.

Proposed New Purchasing Plan

CSC is currently reviewing its inmate purchasing practices in an effort to increase administrative efficiencies and to enhance institutional safety by increasing its control of the types of items brought into CSC institutions.

CSC is therefore considering developing a list of items that could be made available for purchase by inmates and identifying suppliers that could provide these goods at a consistent price to inmates in all CSC facilities. In an effort to maximize the efficiency of resources, ordering of goods would be made according to a set schedule (once or twice monthly, for example).

CSC is also considering a change in its policy on electronics whereby it would only allow clear-plastic electronics. Electronics have traditionally been used to conceal contraband or other unauthorized items. Searching of electronics, especially televisions and stereos, is challenging for correctional staff as they are not trained to open and inspect electronics, which voids the warranty. It is believed that requiring inmates to purchase clear-plastic electronics would reduce the likelihood of contraband introduction and concealment.

ANNEX A SCOPE OF WORK

The suppliers must be able to provide one or more of the following categories of goods to CSC institutions (locations found in Annex C):

| Required Supplier Categories | Examples of goods |
|---|---|
| <p>1. Clothing, footwear and accessories (Men and Women)</p> <p><u>GSINs:</u> N8405L: Jackets/ Trousers/ Coveralls/ Slacks/Shorts, Men's N8405LFA: Trousers, Slacks, Shorts, Work, excluding Athletic or Undershorts N8415UEA: Swimwear, Trunks and swimsuits, Men's and Women's N8420: Underwear and Nightwear, Men's N8425: Underwear and Nightwear, Women's N8440: Hosiery, Handwear and Clothing Accessories, Men's N8445: Hosiery, Handwear and Clothing Accessories, Women's N6645G Watches</p> | <p>A variety of styles of t-shirts (V-neck, crew neck, golf, sleeveless, turtleneck), sweatshirts, sweaters, dress shirts/blouses, blazers, sweat pants, jeans, casual and dress pants, shorts (denim, athletic, khaki), skirts, dresses, socks (sports, dress and wool), tights/nylons, ties, undergarments, pajamas, bathrobes, hats (winter and ball caps), gloves/mittens, coats, belts, sunglasses (non-mirrored), watches, bathing suits, running shoes, sandals, dress shoes, slippers and boots (rain, winter and heeled – no steel inserts).</p> <p><i>N.B.</i>- <i>Certain restrictions will exist and be identified. For example, items depicting violence or gang affiliation will not be permitted.</i></p> |
| <p>2. Hobby craft</p> <p><u>GSINs:</u> N3405: Saws and Filing Machines N5210: Measuring Tools, Craftsmen N8020: Paint and Artists Brushes N8040: Adhesives N8305: Textile Fabrics N8330: Leather N5510: Lumber and Related Basic Wood Material</p> | <p>Wood working items, woods (dark, red, aromatic, yellow cedar, pine, walnut, oak, birch, spruce, dowels), leather (suede, rawhide, deer hide, elk, cowhide), materials for jewelry construction (beads, clasps, storage boxes), fabric, paintbrushes, paints, stains, thinners, sandpaper, dust masks, ink, needles (knitting, beading, embroidery), canvas, scissors, carving tools, screwdrivers, stone (apatite, soapstone, alabaster), adhesives and glue guns.</p> |

| | |
|--|---|
| <p>3. Sporting equipment</p> <p><u>GSINs:</u> N7830: Recreational and Gymnastic Equipment</p> | <p>Cleats, racquets (badminton, tennis, squash, racquet ball, broom ball, ping pong), weight belts and gloves, hockey sticks, wrist/ankle weights and supports, helmets, sports bags, mouth guards, exercise balls, jump rope (8' long).</p> |
| <p>4. Health and personal*</p> <p><i>*this category will be split into two distinct areas</i></p> <p><u>GSINs:</u> N6508: Medicated Cosmetics and Toiletries N6510ET: Supports Elastic, Ankle, Knee, Elbow N6650H: Lens Optical (all types)</p> | <p><u>Health items:</u> will include non-prescription items such as dietary supplements and alternative therapies. These must have a Drug Identification Number (DIN), a Natural Product Number (NPN) or Drug Identification Number-Herbal Medicine (DIN-HM) letters preceding the product licence number on the product label and must not pose a security risk. As such, a list of prohibited ingredients has been developed and can be found in Annex D. The supplier will put measures into place to ensure items containing these ingredients are not made available to inmates.</p> <p><u>Personal items:</u> These items will exclude those offered at the institutional canteen (Annex E) but will include the following: contact lenses and solutions, hair dryers, hair cutting kits, makeup, electrical razors, tweezers, moustache trimmer, ear plugs, hair ties, hot water bottles, electric toothbrushes, oral irrigation appliance, over the counter knee/ankle/wrist braces, orthotics (no metal pieces).</p> |
| <p>5. Electronics* and related items</p> <p><i>*If a supplier can provide items in this category with the exception of clear-plastic items, Canada may consider separating this category and awarding two distinct contracts.</i></p> <p><u>GSINs:</u> N4140CE: Fans, Portable, Office Desk and Column N6645B : Clocks</p> | <p><u>Clear-plastic electronics:</u> televisions to a maximum size of 16" and without USB ports, memory card ports or any other types of ports allowing connection to external storage media. They must not have networking capabilities and must not be capable of wireless communication. They must have a headphone jack. CRT and flat screens (LCD, LED or equivalent) technologies are authorized. One piece stereo system (no condenser microphones, microphones, short wave</p> |

| | |
|---|---|
| | <p>capability or detachable speakers permitted).</p> <p><u>Other related items</u> (do not need to be clear plastic): clock radios, desk fans (max 12" diameter- plastic only), CD walkman/players (non-recording), headphones (no wireless and max 10' long), tv remote controls, power bars, audio CDs, coaxial cables (10' long), coffee makers, hot pots, food timers, reading lamps.</p> |
| <p>6. Miscellaneous goods</p> <p><u>GSINs:</u> N7510: Office supplies N7610: Books and Pamphlets N7105E: Frame, picture N7420B: Calculating machine N7520: Office Devices and Accessories N7690: Misc. Printed Matter N7710: Musical Instruments</p> | <p>Books (including dictionaries, atlases, encyclopedia, textbooks, puzzle books), plastic containers (maximum size: 500 ml), office supplies (binders, calculators, pens, markers, highlighters, envelopes, cardstock, lined paper, computer paper, note pads, scrapbook, sketch), stringed instruments (guitars, basses), keyboards (maximum of 1meter length, no amps), wind instruments, mugs, photo albums and frames (no glass), combination locks, board games, clothes hangers (plastic only), stapler (non-electric), water bottles (12 ounces).</p> |

CSC will devise an exhaustive list of items in each category that the respective suppliers must provide. The list will offer sufficient choice to inmates within a specified price range and meet CSC's security needs. Only those items will be made available. No substitutions will be accepted.

Returns will only be permitted in the following instances: the item is the wrong size, is defective, or not the item that was ordered.

The suppliers will:

- a) provide a catalogue of approved items available for purchase;
- b) provide an on-line ordering system accessible to CSC staff;
- c) package and deliver orders to each site;
- d) provide a reasonable system for returns/refunds and/or repairs.

All costs for delivery will be borne by the inmates and will, ideally, be based on a flat delivery fee scheme to not penalize inmates housed in more remote communities. A directory of CSC institutions, with their locations, can be found in Annex C.

Ordering will be done according to a set schedule. The quality of the goods provided will be assured by the suppliers. Any defects and damaged goods resulting from delivery will be replaced in an expedient fashion at no additional delivery cost. An efficient strategy for returns due to sizing (clothing and footwear) will also need to be developed. Restocking fees will be avoided.

The suppliers must ensure their personnel is security-cleared and must mitigate any risks of tampering when using sub-contractors.

The suppliers providing electronics will offer the following items, at a minimum, with clear-plastic cases: televisions (no larger than 16", without USB ports and without wireless capacity) and one-piece stereos.

All items must meet all Canadian Health and Safety Regulations and be quoted in Canadian dollars and include shipping fees.

ANNEX B
CORRECTIONAL SERVICE CANADA
INMATE PURCHASING

Information Requested from Potential Suppliers

Respondents are requested to read Annex A (Draft Statement of Work) before answering the questions below. The questions have been grouped under common themes. There is no requirement to answer all questions, however, all information provided is appreciated.

1. Can your company offer one or more of the goods categories to all locations across Canada? Please identify the categories your company is able to supply.
2. Can your company provide the same items in all provinces where CSC has institutions? If not, to which provinces can you provide goods?
3. CSC must ensure that all items purchased meet specific safety requirements. In addition, CSC staff search all items entering the institutions to detect any attempt to introduce unauthorized items or contraband into the institutions.
 - a. How would your company assist us in assuring security when orders are assembled and packaged for CSC?
 - b. What measures do you have to ensure security and quality assurance of items leaving your company? Can you share any best practices in terms of your delivery processes or use of delivery companies?
4. Please provide one or more examples where your company has provided similar services during the last 5 years to facilities, companies or institutions that have specific security requirements. Would you be able to share best practices or lessons learned?
5. With regards to the purchase of electronics:
 - a. How does your company propose to deal with warranty issues in cases of breakage or defect?
 - b. Can your company offer clear-plastic televisions and stereos meeting the requirements enumerated herein?
 - c. Can your company offer additional items with a clear-plastic casing, such as radio alarm clocks or portable CD players? Please provide suggested retail prices for all these clear-plastic items.
 - d. Can your company offer other related electrical and electronics items but not necessarily in clear plastic, such as those identified in the table in Annex A?

6. For clothing-related items, CSC is hoping to offer inmates a choice of a set number of items in different styles, colours and prices to choose from. For example, CSC may decide to make available for purchase five different pairs of running shoes, of different brands and price ranges.

a. Can your company provide a variety of product lines, clothing types, styles and price ranges? In the affirmative, please list any name labels you might have (for example, Nike, Sketchers, etc.) and associated product lines within those brands (for example, Nike: running shoes, t-shirts, sweatshirts, socks).

b. What is the return policy for items that are the wrong size?

7. Can your company provide a catalogue in print format and/or CD-Rom of all items available for purchase? What kind of online ordering tool can you provide to facilitate the ordering process?

8. This purchasing strategy for inmates would represent a significant departure from the way purchasing is currently done in CSC facilities. Given your expertise in the supplier industry, would your company have any recommendations for CSC in how best to implement such a strategy that includes so many product categories?
