Amendment No. 002

This amendment is being raised to provide responses to Requests for Clarification.

Requests for Clarification

Q 1. Clause: GI 1—3 of RFSO.

We understand that the province of Ontario has been divided into three regions which are Western Ontario, Central Ontario and Eastern Ontario. It is PWGSC's intention to award standing offer for each region.

We intends to create three (3) teams, one for each region. All these 3 teams are subject to one project principle who is the point of contact of my firm and is responsible for all three regions. If so, according to clauses SRE 3.2.4 and 3.2.5, our CV may be increased to 8.

Please clarify if my approach as mentioned above is acceptable.

A1. If a Proponent intends to submit Proposals for more than one region, there is no requirement for a firm to have separate teams for each region as long as it can be demonstrated that all the RFSO conditions are met. Each Standing Offer is an individual "potential agreement" so each proposal for each region will be reviewed as such. Every proposal has the potential to be awarded in one region but not necessarily in all regions.

If the Proponent chooses to present different teams for different Regions, a separate proposal should be prepared and submitted for each individual Region on which you intend to bid. The response to SRE 3.2.2, 3.2.4 and 3.2.5 may differ if proposing different teams for individual Regions.

Ultimately, it is to the Proponent to decide how best to present their team(s) in their proposal(s).

Q 2. Clause: 3.2.3.—2 of SRE 3

What the Proponent should provide:

(a) A brief description of a maximum of 4 significant projects complete over the last 5 years by the firm, or its senior personnel:

Since this RFSO is for structural engineering service, so we interprets the term "complete" as "structural component complete" but not the completion of entire project which includes architectural, mechanical and electrical components.

Please clarify if such interpretation is correct..

Solicitation No. - N° de l'invitation

A2. The projects should be entirely completed projects, including architectural, mechanical electrical components.

All other terms and conditions remain the same.
