This solicitation amendment 002 is raised to address Bidder's questions.

Question 02.

The SOW states that the filter vessel is to be 'equipped with' the following items; water/sump drain valve, automatic air eliminator, relief valve, vacuum breaker and fuel sampling ports. Are these items to be provided new or can we re-use them from the existing vehicles?

Answer:

Any items that are on the actual equipment can be re-used providing that they will be suitable for the new filter vessel system, meaning that they will meet B620 and EI/API standard. Items identified in the SOW that are not part of the current equipment will have to be supplied.

Question 03.

The SOW states that the filter vessel is to be 'fitted with an Automatic Water Defence System'. Is this item to be provided new or can we re-use them from the existing vehicles?

Answer:

The current Automatic Water Defence System can be re-used providing it will do its function with the new filter vessel system.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME
