Amendment 001

This Amendment 001 is being raised to answer questions from industry:

1) Can bids be submitted via fax?

Yes. The fax number is 604-775-7526.

2) Volumes indicated on page 17 require that devices have to consistently produce 1,000,000 impressions per month on B/W and 400,000 impressions per month in colour. However in the evaluation on pages 22 and 23 it indicates a B/W average monthly volume is 105,000 and average Colour device volume is 12,000 and 40,000 for B/W. Can you please clarify which volumes are more accurate as this will greatly impact our product recommendation?

Volumes indicated on page 17 should read:

Monochrome: Must be able to consistently produce 250,000 pages per month, working in 7 hours/day, 5 days/week time frames.

Colour: Must be able to consistently produce 100,000 pages per month, working in 7 hours/day, 5 days/week time frames.

3) In Annex C under M16 for Monochrome devices it asks for a mandatory post-insertion tray. Can the Crown explain what it is being used for? Is it for covers on booklets and is there a requirement for front and back covers?

Yes, the post insertion tray is required for separation sheets, covers, tabs, etc.

4) In Annex C under M4 for both Monochrome and Colour, the mandatory specification asks for 2400 x 2400 dpi. The industry standard for text and graphics in a production environment is 600 dpi to 1200 dpi. Given that 2400 x 2400 is specific to only a selected vendor, would you consider 1200 x 1200 dpi for both the monochrome and the colour devices?

No. The requested 2400 x 2400 dpi is mandatory to produce high quality greyscale copies of color photos, maps and other color printing completed greyscale.

All other terms and conditions remain unchanged.
