AMENDMENT 001

This amendment is raised to answer questions from the Industry and to extend the bid closing date.

Questions: Item vii)(d). fishing kit one foam float. Can more detail be provided for this item?

Is this a piece of foam, if so what are the diameters?

Is it a foam bobber?

Is there a specific color?

Answers : Yes, this item is a foam bobber. What we've used in the past was a 1 cm by 1 cm piece of high density foam. This type of foam serves double duty. It acts as a bobber, but it also secures the kit's fishing hooks to avoid damaging other items of the SERE kit. In essence, any bright coloured piece of foam that's large enough to float while holding one of the kit's fishing lure with bate and can be reused over and over again will meet the requirement (i.e. High density foam will work. Open cell foam would fall apart after a use or two and would therefore not meet the specifications of this RFP).
