PART 3 - BID PREPARATION INSTRUCTIONS

3.1 Bid Preparation Instructions

Canada requests that bidders provide their bid (1 hard copy) in sections as follows:

- Section I: Technical Bid;
- Section II: Financial Bid; and
- Section III: Certifications

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process Policy on Green Procurement (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders should :

- 1) use paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

3.1.1 Submission of Evidence

Submission of Evidence as described in 3.1.2 and 3.1.3 below **MUST** be included with the bidder's proposal at time of bid closing. Failure by the bidder to provide the required evidence will result in the bidder being disqualified and no further consideration will be given to the bidder and the proposal will be deemed non responsive.

The evidence provided by the bidder may be verified. PWGSC reserves the right to verify information for completeness and accuracy and to confirm reference satisfaction with services provided.

3.1.2 Mandatory Employee Experience and Past Performance

To carry out the work on this requirement, the contractor must provide five (5) qualified service personnel: two (2) qualified Fire Alarm Technicians, two (2) qualified Sprinkler and fire protection installer and one (1) qualified Electrician.

The bidder must provide evidence to demonstrate that the service personnel proposed to perform maintenance of Fire Alarm, Fire Protection and Life Safety Systems have five (5) years of recent experience and past performance by referencing three (3) similar projects/contracts whereby the service personnel have performed satisfactorily. The bidder must complete the following form for each technician

who will be performing work on this requirement in order to demonstrate that each proposed service personnel has the required experience.

- Recent experience is defined as experience gained from January 2003 up to and including the solicitation closing date.
- Similar is defined as maintenance service on Fire Alarm equipment, Fire Protection and Life Safety Systems comparable in size, scope and complexity to the equipment listed in Annex A, Statement of Work, Part 3, Equipment Inventory.

In cases where experience is acquired concurrently, the time period will be considered only once for the purpose of calculating the minimum requirement of 5 years of recent experience.

Example:

- Project 1: started on January 1, 2008 and ended on May 31, 2008 = 4 months
- Project 2: started on January 1, 2008 and ended on December 31, 2010 = 36 months
- Project 3: started on January 1, 2008 and ended on December 31, 2010 = 36 months

Total period for these 3 projects will count as 36 months and not 76 months because the period Jan. 2008 to Dec. 2009 has already been counted in Projects 2 and 3. This employee does not meet the required minimum of 5 years of recent experience.

In the event where the information for any of the employees cannot be confirmed by the client contacts named in the proposal, the proposal will be considered non-responsive and no further consideration will be given to the proposal. If the Bidder submits names of technicians in excess of the stated requirement, only the references up to the identified limit of five (5) service personnel will be assessed. The first five (5) service personnel listed in the proposal will be considered for evaluation.

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications and related documentation to be awarded a contract.

Compliance with the certifications bidders provide to Canada is subject to verification by Canada during the bid evaluation period (before award of a contract) and after award of a contract. The Contracting Authority will have the right to ask for additional information to verify the bidders' compliance with the certifications before award of a contract. The bid will be declared non-responsive if any certification made by the Bidder is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications to provide the related documentation or to comply with the request of the Contracting Authority for additional information will also render the bid non-responsive.

5.1 Mandatory Certifications Required Precedent to Contract Award

If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement.
