This Amendment 004 is raised to address questions from potential bidders.

Question 14

Section HC02618, "Painted Pavement Markings" The paint to be supplied is in accordance with CGSB 1 206 M89, alkyd paint. Based on environmental concerns, some alkyd paints have been discontinued and in their place water borne paint is utilized. Please confirm that it is the intent to use alkyd paint. Is there an equivalent waterborne paint that a contractor could utilize as an alternative to the specified alkyd paint?

Response 14

Alkyd paint as described in the Specification is required.

Question 15

Section HC01816, "Snow Removal and Ice Control" In accordance with the tandem dump trucks, is there a requirement to have any number of units equipped with pre-wetting systems for the application of calcium chloride?

Response 15

No units are required to have pre-wetting equipment.

Question 16

In section HC01816, "Snow Removal and Ice Control" at point 1.3.8 it states that starting from Muncho Camp there are 2 daily inspection trips. One from km 678 – km 698 and the second from km 698 – km 730. But in section 01 11 00, "Summary of Work" at point 3.1 it states that only one truck is based at Muncho Camp. Could you please clarify?

Response 16

It's not two trips. The same truck does both directions from Muncho Camp as the total is only 50 km.

All other terms and conditions remain unchanged.
