Amendment 004

Requirement: For the provision of Man-portable Parabolic VSAT with embedded modem.

Section 1: The above mentioned solicitation is hereby amended to reflect questions received from a bidder and the answers provided by the consignee:

1- Q. Would Canada reconsider its requirement for BUC power and introduce a requirement for EIRP or G/T vice BUC power?

A) We will still require the BUC power to be at least 10 W. Minimum EIRP will vary with receiver size. ARSTRAT certification will ensure values are sufficient for operation on WGS and conducts testing on individual systems for compliance within their guidelines.

2- Q. Will DND permit a bid from a system certified only in WGS X-Band that meets all other mandatory requirements and offers the added benefit of being small enough to carry-on to an airplane and stow in the overhead luggage compartment? A commercial Ku-band variant is now in prototype stage and would be available for future purchases.

A) We require a VSAT with both WGS X band and commercial Ku Band.

Section 2: The above mentioned solicitation is hereby amended to reflect questions received from a bidder and the answers provided byPWGSC:

1- Q. Will a bid submitted by fax be acceptable?

A. Yes.

IF YOU HAVE ALREADY SUBMITTED YOUR OFFER, AND THE ABOVE INFORMATION CHANGES YOUR PRICING, PLEASE RE-SUBMIT YOUR REVISED PRICING ON OR BEFORE CLOSING DATE.
