INTERIM CF EXTREME COLD WEATHER MUKLUK ASSEMBLY (ECWM)

Solicitation Amendment No. 002 is raised to provide the following answers to questions raised by bidders:

Question 5:

Part 4 - Evaluation Procedures and Basis of Selection, section 1.1, item 1.1.1 - it is indicated that no material substitutions are allowed in the pre-award samples. The pre-award samples that we will submit will use materials that will fully comply with the solicitation requirement. We do however anticipate making one minor change between the pre-award sample and the final production boots; although this is not really a "material" change but only a colour change. Please confirm that our understanding that as the material (fabrics) will not be changing between pre-award samples and final production boots that we are compliant?

Answer 5:

Part 4, Evaluation Procedures and Basis of Selection, Section 1.1, Article 1.1.1.:

DELETE: There will be no material substitutions allowed in the pre-award sample.

INSERT: "There will be no material substitutions allowed, except for the colour, in the pre-award sample.

At the pre-award stage, it is desirable that pre-award samples, test results and certificates of compliance for whole boot and material testing be submitted using materials in the colours in accordance with Annex B.

However, if at the pre-award stage there are bids containing physical examples, test results and certificates of compliance for materials that differ in colour than stated in Annex B, **a letter identifying deviations in colour that states that material performance is equal but merely the colour differs is essential/mandatory in order for the bids to be compliant.**"

At the pre-production stage, physical examples, test results, and certificates of compliance submitted must be completed using boots in the colour(s) identified in accordance with the contract.

At the production stage, test results submitted must be completed using boots in the colour(s) in accordance with the contract.

Question 6:

Annex B, paragraphs 7 to 7.3, it is mentioned that it is possible for bidders to get samples and technical information. Please let us know how to proceed.

Answer 6:

Please send your request to the Contracting Authority at PWGSC detailing samples and/or technical information required, mailing address and contact.
