This second solicitation amendment is raised to answer questions and modify the solicitation.

1. In Part 7 - Resulting Contract Clauses, delete clause 17. Performance and Reliability in its entirety.
2. Is there an existing Repair and Test Schemes (RTSs) available for the proposed repairable items listed in Appendix 1 to Annex A ?

The only repair schemes that DND have are in draft form only. These documents are not Canadian Forces Technical Orders and have not been identified in the SOW as "Applicable Documents" as they have not been validated. Most of the performance and reliability requirements (i.e. dimensions, pressure, force, torque etc.) are contained in the applicable drawings (part of the TDPs identified in para 4.6 of the SOW).

3. Are the Technical Data Packages, identified in the SOW Para 4.6 available to companies looking to bid on this opportunity ?

Attached are some examples of some of the drawings.

This requirement is only for the Handling Gear i.e. Winches, Hoists and Domes. Attached are 2 pictures for the RCN web site that show what is to be worked upon. The 240 picture is the CANTASS Winch and the 200 picture is the Dome. The C5 Hoist is underneath the Dome and Lowers and Raises a Transducer.
