This amendment 005 is raised to answer the following questions:

A) Question and Answer

Questions	Answers
<p>Q1: There have been several questions concerning whether or not an air compressor is to be included in the quotation for this SOA. The fact that a Dewalt Model D55168-CA was used during the design of the installation kit does not mean that the compressor is to be provided. It is clearly not in the TDP. Please provide a clear statement as to the inclusion of the air compressor.</p>	<p>A1: Yes, the Air Compressor is to be included in the quotation for this SOA. It will be added to the drawing as a line item # for future requirements,</p>
<p>Q2: The CEW Components in Table 1 of para 3.2 of Annex C, lists many components with nomenclature that differs from that used in the TDP. This makes it difficult to determine if the item has been included in the costing. An example would be "Emergency Sensors". No reference to 'emergency sensors' can be found in the TDP. Another example is "Peg Board". If the table could be regenerated with the associated DL's beside each item it would make it possible to commit to a "YES" in the Comply column of the RFP.</p>	<p>A2: Due to difference of the nomenclature, Table 1 of Annex C para 3.2 is to be replaced with the table below. English and French are on the same table for the purpose of answering the question in bilingual format. All components identified in this table are to be provided in the container and costed accordingly in the unit price of the NSN.</p>

Table1: CEW Components

Item Name	TDP Drawing #	Comments
Large ROV sliding stowage platform/ Large ROV Stowage space	0976674-1 (Instl Assy, Large ROV)	
Modification Drawing, EOD Shelter	0976697-1 (Modification Drawing, EOD Shelter)	
Bomb suit locker	0976702-1 (Instl Assy, Bomb Suit Locker)	
Freezer Overhead Cabinet	0976704-1 (Instl Assy, Freezer Cabinet)
