The Standing Offer Authority will have the right to ask for additional information to verify offerors' compliance with the certifications before issuance of a standing offer. - Meets all environmental requirements.

The DND representative must witness the destruction activity and provide security of the items throughout the destruction process. The DND representative will provide, sign and retain the Certificate of Destruction once destruction activity is completed for DND's records. This Certificate provides authority for the Offeror to retain the residue.

It is required that the Offeror provide a dumpster-type container (not to exceed 20 feet in length) to be located at 7CFSD for temporary storage of the CTAT material until destruction is required and accomplished. The Offeror will deliver one (1) container to 7CFSD within two weeks of Standing Offer issuance. When a container is removed for CTAT material to be destroyed, a replacement container will be provided by the Offeror within 24 hours.

DND, suggests that pickup, transport and destruction be scheduled within ten days of a Call Up Against a Standing Offer being issued. All activities associated with a Call Up Against a Standing Offer (pickup through and including complete destruction) must be completed during the same business day. The Offeror is responsible for the controlled movement of any container and contents from the 7CFSD location to the destruction site. It is required that a DND representative accompanies the material during transportation and is constantly with the material until the destruction is completed to the satisfaction of the DND representative and the Certificate of Destruction is signed by the DND representative.

DND, 7 CFSD staff will ensure all items being destroyed are free of any known hazardous material (Haz Mat) and/or any known substance that is identified as a potential personal or environmental hazard or harm. DND is responsible for the accuracy of all documentation that accompanies shipments. DND will leave the packaging, pallets, etc. at the Offeror's location for their disposal. If there are any packaging or pallet material that must be returned, DND will identify it as a separate item when the goods are offered up for disposal. DND will be responsible to ensure those items are returned.

The Offeror will retain the generated residue of the destruction process. The residue can be disposed of in a manner acceptable to the Offeror. Once the Certificate of Destruction is signed by DND, the material is no longer considered classified and can be utilized by the public.
