This Amendment No. 002 is raised to respond to questions received by the industry and modify the solicitation.

1. Questions and Answers

- Q3.** We did not see a Balance Equipment List. The Centrifuge Equipment List is provided in "Annex B.
- Q3.** Balance and Centrifuge Equipment List is included with this amendment at Annex "B".
- Q4.** Do you have a requirement for Preventative Maintenance and ISO9001 calibration/certification or 17025 calibration/certification for the Centrifuges and Balances;
- A4** This requirement is for preventative maintenance and calibration services of Balances and Centrifuges. Centrifuges and most balances can be done to ISO 9001; however two balances must be done to ISO 17025.
- Q5.** Is there easy "in-out" access to the Instruments; we understand they are in two locations – are these locations close?
- A5.** Please refer to Amendment No. 001 Q/A No. 1. Contractor must abide by the security requirements of the resulting contract and building. It will take planning and co-ordination with the Calibration Technician, the individual groups and arranging specific requirements needed by some locked/more secure areas.
- Q6.** Will other Bidders have access to your answers to our questions; will other questions/answers be posted?
- A6.** All Questions and Answers are posted on MERX.
