This Tender Amendment No. Four (4) is raised to include the following revision.

The following addendum to the tender documents is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Addendum No. 4

1. **QUESTION AND ANSWER**

Q1. Section 05 50 00 Page #3, Sub- Section 2.2 Fabrication

Due we assume that site fit up of wales is necessary prior to being hot dip galvanizing, and that touch up of site drilled bolt holes is not permitted?

A1. We would like it predrilled prior to galvanizing as much as possible. The upper wales will be fastened through the exiting holes in the curb and SSP. These should be accurately measured, a shop drawing created and predrilled as per the shop drawing. For the lower wale, the boltholes for the splices should be predrilled, the actual connection to the pile would have to be drilled on site and the holes touched up.
