Questions and Answers

Question 1:

Will Public Works and Government Services Canada (PWGSC) consider evaluating an offer in response to its Mercury Global Early Access Anchor station solicitation (W8474-13MG10/A) with an alternate form of certification evidence as requested in the Appendix 1 - Evaluation Plan Item 7 and SOW paragraph 3.7? Specifically, would the Phase II Certification Test Report demonstrating compliance to MIL-STD-188-164A and WGS X,Ka Band Terminal Certification Requirements, Version 1.07 and evidence of Phase III testing scheduled for the summer of 2012 be evaluated as technically compliant in conjunction with an appropriate business arrangement? Potential business arrangements such as withholding final acceptance of the Anchor station until operating successfully on the WGS satellite would ensure that the Department of National Defence (DND) receives the most cost effective solution available with minimal risk.

Answer 1:

In order to be considered compliant, the bidder must meet all requirements stated in Solicitation No. W8474-13MG10/A, including the certification requirement in Appendix 1 - Evaluation Plan Item 7 and SOW paragraph 3.7. An alternate form of certification evidence will not be considered compliant.
