## PART 1 - INFORMATION AND INSTRUCTIONS

### 1. Security Requirement

There is no security requirement associated with this requirement. (XLDV2, 18/04/05)

### 2. Requirement

See page detailed line item description of this document.

#### 2.1 Note to Bidder

The Manufacturer must be the Original Equipment Manufacturer (OEM) or be approved by the OEM to manufacture the subject item(s); or that the proposed manufacturer has previously manufactured the item(s), or provide other information for DND's review and acceptance to support the manufacturers capability. Such information will be required within 72 hours of notification of the bidder or the bidder may supply the information with the bid.

#### 2.2 Military Aviation Replacement Parts - Condition and Certification of Deliverables End Items

The following categories do not apply to standard and commercial parts. Standard parts consist of common hardware parts and raw materials, not necessarily designed for aviation use, produced to recognized industry or government specifications, which are available without proprietary limitations (such as Society of Automotive Engineers (SAE), National Aerospace Standard (NAS), Army-Navy Aeronautical Standard (AN), and Military Standard (MS) hardware items). Commercial parts consist of common non-aeronautical parts produced to recognized industry specifications and available on the commercial market. Deliverable standard and commercial parts must be in a new condition.

#### 1. Category #1 - New Materiel

Deliverable end items to be manufactured or which have been manufactured but not used, which are supplied by:

- (a) the owner of the design or manufacturing rights to the items; or,
- (b) the authorized manufacturer or agent/distributor of the owner of the design or manufacturing rights to the items; or
- (c) distributors approved by Transport Canada (TC) or accredited by the Aviation Suppliers Association, for parts that have an application to a civilian type certified aircraft; or
- (d) maintenance organizations approved/accredited by TC, the Department of National Defence (DND)/Canadian Forces Technical Airworthiness Authority or repair stations certified by the Federal Aviation Administration (FAA).

#### 2. Category #2 - New Surplus Materiel

Deliverable end items, unused and supplied by an entity other than Category #1 sources. Full traceability documentation back to the owner of the design or manufacturing rights to the items or their authorized manufacturer or agent/distributor is required.

#### 3. Category #3 - Other Condition

Any deliverable end item condition other than Category # 1 or Category #2. Should the Bidder be offering deliverable end items in Category #3, a complete description of the item's condition and all available traceability documentation is required with the bid. Bids containing parts identified in this category are subject to evaluation by Canada.

#### Deliverable End Item Grid

Bidders must indicate the NATO Supply Code for Manufacturers or Commercial And Government Entity (NSCM/CAGE) code of the manufacturing entity under the appropriate category of the grid. For example, if a bidder is offering a Category #1 item(s), it must indicate the NSCM number under that category. Bidders may use additional pages to provide the complete description called up under Category #3 if necessary.

### Requirements for Airworthiness Certification

The requirements for airworthiness certification do not apply to the provision of standard and commercial parts. Standard and commercial parts must be accompanied by a packing slip that identifies the name and address of the supplier, the NATO stock number, identification of the manufacturing standard (e.g. SAE, NAS, AN, MS) and/or manufacturer's part number and model number as applicable; quantity, identification of the lot or batch number if applicable; and the cure date/shelf life if applicable.

Bidders are advised that it will be a requirement of the resulting Contract to provide with each item, supplied under the resulting Contract, a Certificate of Conformance, or certified true copies as specified herein:

1. Category #1 and #2 military unique aviation replacement parts must have an Original Equipment Manufacturer (OEM) or an OEM's approved manufacturer's Certificate of Conformance, which includes all the following information:

- (a) positive identification of the item by type, class, style, grade, model, part number, description, nomenclature and/or serial number, as applicable;
- (b) either the following certification, or a similarly worded statement, signed by an authorized inspector, that satisfies the intent of the following:

"I certify that the aeronautical product described here conforms to the applicable design data and is in a condition for safe operations."

- (c) identification of both the authorized signatory and the organization.

2. Category #1 and #2 items, which have an application to a civilian type certified aircraft, must be supplied with a Certificate of Conformance, namely:

- (a) form TCCA 24-0078, Authorized Release Certificate, signed by a TC authorized inspector, within the two (2) years before contract award;
- (b) FAA Form 8130-3, Airworthiness Approval Tag, or a FAA Form 8130-4, Export Certificate of Airworthiness, signed by a FAA authorized inspector, within the two (2) years before contract award;
- (c) Joint Aviation Authorities (JAA) Form One, Authorized Release Certificate, signed by a JAA authorized inspector, within the two (2) years before contract award;
- (d) European Aviation Safety Agency (EASA) Form One, Authorized Release Certificate, signed by an EASA authorized inspector, within the two (2) years before contract award; or
- (e) OEM's or OEM's approved manufacturer's Certificate of Conformance; which includes:
  - (i) positive identification of the item by type, class style, grade, model, part number, description, nomenclature, and/or serial number, as applicable;

(ii) either the following certification, or a similarly worded statement, signed by an authorized inspector, that satisfies the intent of the following:

"I certify that the aeronautical product described here conforms to the applicable design data and is in a condition for safe operations".

(iii) identification of both the authorized signatory and organization.

3. Bidders must specify which one of the documents identified above will be provided for each item required to be supplied in response to the bid solicitation. (A0300T, 25/05/07)

### 2.3 Military Aviation Replacement Parts - Substitutes and Traceability

The Part Number and NATO Supply Code for Manufacturers (NSCM(s), or the Commercial And Government Entity (CAGE) code indicated in the bid solicitation are the only ones known to the Department of National Defence that meet the form, fit and function requirements of the Original Equipment Manufacturer (OEM) approved type design of the aircraft in which they will be installed.

If the Bidder proposes to supply any part with an alternative Part Number or NSCM/CAGE code, the Bidder must provide, either with its bid or within three (3) working days following receipt of a request from the Contracting Authority, all the technical information (e.g. drawings, specifications, engineering reports, and/or test reports) necessary to clearly demonstrate that the part proposed has the form, fit and function characteristics equivalent to the Part Number(s) and NSCM/CAGE code(s) specified in the bid solicitation.

Failure to provide the required technical information will result in the bid being declared non-responsive with respect to any part for which such information was requested.

If a part is not manufactured by the OEM of the aircraft, then it must be manufactured by an authorized supplier to the OEM or by the original manufacturer of the part chosen for use by the OEM of the aircraft (or the successor of or licensed by that original manufacturer). Canada reserves the right to verify with the OEM of the aircraft that the manufacturer of a part proposed is in fact authorized by the OEM to produce that part or supplies that part to the OEM.

If the Bidder proposes to supply any part with an alternative Part Number or NSCM/CAGE code, the Bidder must provide the following substitution notice fully completed.

\_\_\_\_\_

The Bidder is advised that availability and retention of records of the manufacturer sufficient to constitute proof of origin will be a condition of the resulting Contract. (A0301T, 25/05/07)

**3. Standard Instructions, Conditions and Clauses**

All instructions, conditions and clauses identified in the bid solicitation by title, number and date are set out in the Standard Acquisition Clauses and Conditions Manual issued by Public Works and Government Services Canada (PWGSC). The Manual is available on the PWGSC Website: <https://buyandsell.gc.ca>.

Bidders who submit a bid agree to be bound by the instructions, conditions and clauses of this bid solicitation and accept the terms and conditions of the resulting contract.

**3.1 Standard Instructions**

The standard instructions and conditions 2003 (02/03/12) - Goods or Services Competitive Requirements are incorporated by reference into and form part of the bid solicitation.

**4. Submission of Bids**

Bids must be submitted by the time, date and place indicated in the bid solicitation document. (XLDV8, 18/04/05)

**4.1 Mandatory Evaluation Criteria - Goods :**

The following mandatory factors will be taken into consideration in the evaluation of each bid:

- A) compliance with proposed pricing methods;
- B) price;
- C) manufacture and Parts Traceability for all items; and
- D) material condition;
- E) terms and conditions as outline in this RFP/Contract document
- F) transportation cost information (US suppliers)

**4.2 Basis of Selection**

A bid must comply with all requirements of the bid solicitation to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract. (A0069T, 25/05/07)

**4.3 Evaluation of Price**

1. The price of the bid will be evaluated as follows:

(a) Canadian-based bidders must submit firm prices, Canadian customs duties and excise taxes included, and Goods and Services Tax (GST) or Harmonized Sales Tax (HST) excluded.

(b) foreign-based bidders must submit firm prices, Canadian customs duties, excise taxes and GST or HST excluded. Canadian customs duties and excise taxes payable by Canada will be added, for evaluation purposes only, to the prices submitted by foreign-based bidders.

2. Unless the bid solicitation specifically requires bids to be submitted in Canadian currency, bids submitted in foreign currency will be converted to Canadian currency for evaluation purposes. The rate given by the Bank of Canada in effect on the bid solicitation closing date, or on another date specified in the bid solicitation, will be applied as a conversion factor to the bids submitted in foreign currency.

3. Although Canada reserves the right to award the Contract either on an FOB plant or FOB destination, Canada requests that bidders provide prices FOB their plant or shipping point and FOB destination. Bids will be assessed on an FOB destination basis.

4. For the purpose of the bid solicitation, bidders with an address in Canada are considered Canadian-based bidders and bidders with an address outside of Canada are considered foreign-based bidders.

#### 8. Controlled Goods Program - All items

1. As the resulting contract will require the production of or access to controlled goods that are subject to the Defence Production Act, R.S. 1985, c. D-1, bidders are advised that within Canada only persons who are registered, exempt or excluded under the Controlled Goods Program (CGP) are lawfully entitled to examine, possess or transfer controlled goods. Details on how to register under the CGP are available at: Controlled Goods Program and registration is carried out as follows:

(a) When the bid solicitation includes controlled goods information or technology, the Bidder must be registered, exempt or excluded under the CGP before receiving the bid solicitation. Requests for technical data packages or specifications related to controlled goods should be made in writing to the Contracting Authority

identified in the bid solicitation and must contain the CGP registration number or written proof of exemption or exclusion of the Bidder and of any other person to whom the Bidder will give access to the controlled goods.

(b) When the bid solicitation does not include controlled goods information or technology but the resulting contract requires the production of or access to controlled goods, the successful Bidder and any subcontractor who will be producing or accessing controlled goods must be registered, exempt or excluded under the CGP before examining, possessing or transferring controlled goods.

(c) When the successful Bidder and any subcontractor proposed to examine, possess or transfer controlled goods are not registered, exempt or excluded under the CGP at time of contract award, the successful Bidder and any subcontractor must, within seven (7) working days from receipt of written notification of contract award, ensure that the required application(s) for registration or exemption are submitted to the CGP. No examination, possession or transfer of controlled goods must be performed until the successful Bidder has provided proof, satisfactory to the Contracting Authority, that the successful Bidder and any subcontractor are registered, exempt, or excluded under the CGP.

Failure to provide proof, satisfactory to the Contracting Authority, that the successful Bidder and any subcontractor are registered, exempt or excluded under the CGP, within thirty (30) days from receipt of written notification of contract award, will be considered a default under the resulting contract except to the extent that Canada is responsible for the failure due to delay in processing the application.

2. Bidders are advised that all information on the Application for Registration (or exemption) Form will be verified and errors or inaccuracies may cause significant delays and/or result in denial of registration or exemption. (A9130T,16/05/11)

## PART 2 - RESULTING CONTRACT CLAUSES

### 1. Security Requirement

There is no security requirement associated with this requirement. (XLDV20, 18/04/05)

### 2. Defence Contract - (A9006C, 12/05/08)

#### 2.1 End User Certificate

It is herewith certified that supplies purchased in this Contract are ordered by the Canadian Government for the exclusive use by the Canadian Armed Forces. (D0050C,25/05/07)

### 3. Requirement

See page detailed line item description of this document

#### 3.1 Condition of Material

Material supplied shall be new and conform to the latest issue of the applicable drawing, specification and/or part number that is in effect on the solicitation closing date. (B1000T, 30/11/07)

#### 3.2 Marking - (D2000C, 30/11/07)

#### 3.3 Production (Bearing) - Items 1, 2, 3, 4, 5

All sealed or shielded bearings must be of current production. Bearings manufactured or lubricated within a period of one year from the date of delivery to DND will be accepted as current production. (XHPD29D, 28/04/04)

#### 3.4 Labelling - (D2001C, 30/11/07)

#### 3.5 Wood Packaging Materials - (D2025C, 12/12/08)

#### 3.6 Controlled Goods Program - All items

1. As the Contract requires production of or access to controlled goods that are subject to the Defence Production Act, R.S. 1985, c. D-1, the Contractor and any subcontractor are advised that, within Canada, only persons who are registered, exempt or excluded under the Controlled Goods Program (CGP) are lawfully entitled to examine, possess or transfer controlled goods. Details on how to register under the CGP are available at: Controlled Goods Program.

2. When the Contractor and any subcontractor proposed to examine, possess or transfer controlled goods are not registered, exempt or excluded under the CGP at time of contract award, the Contractor and any subcontractor must, within seven (7) working days from receipt of written notification of the contract award, ensure that the required application(s) for registration or exemption are submitted to the CGP. No examination, possession or transfer of controlled goods must be performed until the Contractor has provided proof, satisfactory to the Contracting Authority, that the Contractor and any subcontractor are registered, exempt or excluded under the CGP.

Failure of the Contractor to provide proof, satisfactory to the Contracting Authority, that the Contractor and any subcontractor are registered, exempt or excluded under the CGP, within thirty (30) days from receipt of written notification of contract award, will be considered a default under the Contract except to the extent that Canada is responsible for the failure due to delay in processing the application.

3. The Contractor and any subcontractor must maintain registration, exemption or exclusion from the CGP for the duration of the Contract and in any event for so long as they will examine, possess or transfer controlled goods. (A9131C, 16/05/11)
