THIS AMENDMENT **004** IS RAISED TO POST QUESTIONS AND ANSWERS ON THE REFERENCED SOLICITATION AS FOLLOWS:

Question:

We still need to know # 1 is the Pto , pump , res . going to operate the crane that they are transferring , or is it only going to run the outriggers , If it is running the crane we need to know what the crane requires for pto , pump , and resorvior capacity , please advise

Answer:

We still need to know # 1 is the Pto , pump , res . going to operate the crane that they are transferring: **YES**

Or is it only going to run the outriggers: **CRANE & OUTRIGGERS**

If it is running the crane we need to know what the crane requires for pto , pump , and resorvior capacity: **6 LITRES/MINUTE**

Additional Information:

We suggest the following:

- The Ezyloader requires a hydraulic diverter flow controller to only allow 6 litres p/min.
- A valve added in line with the valve bank will be required to have oil only at the valve bank when needed.
- Wiring of the valve/pump system will need to be disconnected

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
