The purpose of this amendment is to address questions received from suppliers

1) Manufacturing Services MR7.1 - 7.5

Question: Is the machinery listed as mandatory expected to be in the one facility referenced in 3.1 Location?

Answer:

The equipment must be in-house at the Contractor's facility. This could include facilities other than that specified in 3.1, but must be a Contractor's facility and not a third party. In addition, the location of the machinery in a facility that is far in distance from the primary location where the work will be done (e.g., in another province or country) would not be acceptable as this would limit the ability of DND to oversee the work in progress.

2) 3.1 Location

Question: Is the location distance measured from the NCR to the manufacturing facility?

Answer:

The distance is measured from the NCR to the primary facility where the Contractor will do the majority of the work.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED
