

Amendment 002

1. The following changes are required to the RFP documents:
 - 1.1) Please ignore any items labeled as "N.I.C." in Appendix 'C' and Appendix 'B'. The "N.I.C." remarks do not apply to the scope of this RFP.
 - 1.2) The scope of work includes all painting, finishing, millwork, stainless steel countertops and wall tiles.
 - 1.3) Proponents must budget for pile foundations. Based on the soil conditions in the area, foundations will be either Helical Screw Piles or driven steel 'H' piles. The design-builder will design the piles based on actual geotechnical testing at the workshop site.
2. Reference Annex A - Terms of Reference, Article 2.3.3 Submissions and amend as follows:

DELETE: 2.3.3.1 All design submissions to CSC will be submitted as follows:
INSERT: 2.3.3.1 Design submissions at 33%, 66% and 99% completion will be submitted to CSC as follows:
3. Reference Annex A - Terms of Reference, Article 2.5 Project Review and Approval and amend as follows:

DELETE: 2.5.3.1 CSC project team will review the project for operational , functional, security, integration, maintenance and quality conformance.
INSERT: 2.5.3.1 CSC project team will review the project for operational, functional, security, integration, maintenance, standards and quality conformance. Submissions for design review are required at 33%, 66% and 99% design completion. The 66% design submission will also include the full set of site adapted project specifications.
4. **Additional Site Services Drawings**
