THIS AMENDMENT #010 IS RAISED TO ANSWER QUESTIONS

REASON FOR AMENDMENT:

Canada is publishing herein responses to enquiries received pertaining to this solicitation in accordance with Period 2 - Supplementary Question Period as set out in accordance with article 3 - Enquiries - Request for Supply Arrangements. Please note that questions received in Period 2 will be numbered with the series commencing at 200. A question and its answer will be provided via MERX as the response becomes available. Potential bidders are therefore advised that questions and answers will be issued via MERX and may be published out of sequence.

QUESTIONS AND ANSWERS

Question 201:

We have a follow up question to the answer provided to Question 36:

Our firm is attempting to qualify under both Stream 4 - Real Property Project Management Services and Stream 3 - Project Management Services.

As the name of Stream 4 suggests, Real Property Project Management Services projects can often be pure Project Management projects (in a real property services context) and therefore be compliant under both streams. In such a case, if the same project summary is proposed under both streams, can the Crown please confirm that we can indicate the same amount invoiced in both cases. For example, if we propose a project under both streams for which we have invoiced \$1 million before taxes and travel, all of which was for Real Property Project Management work (and consequently Project Management work), would the Crown accept if under each stream we indicated that the project value was \$1 million?

Canada's Response to question 201:

In this particular scenario, Canada will accept the same project summary being proposed as referenced in both streams. However, a non-real property management project proposed in Stream 3 will not be accepted for Stream 4 unless it also satisfies the requirements set out for Stream 4 (as noted in Attachment B to this RFSA, Section 2 - Mandatory Technical Criteria Stream 4)

Question 202:

In reference to the 2nd Question Period, the supplier would like to pose the following question in reference to Amendment # 5, Question and Response # 27:

Given that TSPS Solutions has added entirely new streams that were not on the original supply arrangement (for instance, stream # 4 for Real Property) we respectfully request a 2 week extension to the response deadline. For suppliers adding this stream to their arrangement, there is substantial work involved which is significantly more time consuming than the refresh process for TSPS SA and SO (i.e. the dollar values and information required for the project summaries are substantially more detailed). Victoria Day also falls in May which decreases the amount of time suppliers have to craft their response to this vehicle.

Canada's response to question 202:

PWGSC will not extend the closing date. PWGSC has taken proactive steps to inform industry through a RFI process published on February 22nd 2013 and closed on March 21st 2013 of its requirements to review the material. In light that non substantial material changes have been made, the closing date of the RFSA as referenced on the front page of the solicitation will remain unchanged and is scheduled to close on May 28th 2013 at 2pm EDT.
