Amendment 001 to Solicitation - Calibration Technicians**Questions from bidders with response back from Public Works and Government Services Canada.**

Q1. For section 1.1.1 Mandatory Technical Criteria –MT7. I was wondering if TEMMIS was a specific test equipment management information system or just a general program? Meaning is there a list of approved systems/programs or as long as the program is for calibration?

A1. TEMMIS stands for Test Equipment Maintenance Management Information System, and is used by DND to track calibrated items ie. torque wrenches. The TEMMIS system is DND-specific. It's not general purpose software, it has been tailor made to DND's specs.

Q2. My second question was if the; (make, model and range) of torque wrenches, screwdrivers, verifiers and transducers to be calibrated are able to be provided? Or if there is a general range that specifies within the equipment would fall under. ie. All equipment is within 300 ft/lbs

A2. Unlimited range and no specific models due to they could change from year to year.

If your tender has already been forwarded and you wish to revise same, this revision should be faxed and reach the bid receiving area before the closing date. The tender number and the closing date are to be shown on the first page of your fax.
