I. MANDATORY REQUIREMENTS PRIOR TO CONTRACT AWARD
1. Controlled Goods: <ul style="list-style-type: none"> The Bidder must be currently registered under the Control Goods Program, Canada.

Question 1:

Is this simply a matter of signing up here?

<http://ssi-iss.tpsgc-pwgsc.gc.ca/dmc-cgd/apropos-about/inscrptn-rgstrtn-eng.html>

With the 45 day wait on applications that the registration page I'm wondering if there is a way to put together a proposal faster while we wait for approval.. ?

Answer 1: The solicitation outlines that the Bidder must be currently registered under the Control Goods Program, Canada at solicitation close however, this amendment is revising requirement so that Bidders must be currently registered under the Controlled Goods Program, Canada, prior to contract award.

Question 2:

Since this appears to be an artistic proposal I was wondering why it is necessary to even go through a controlled goods registration as this would all be virtual/animated work..

Answer 2: Bidders must be currently registered under the Control Goods Program, Canada prior to contract award because the depicted technologies and concepts may eventually become militarized, which may then become a controlled good(under the Export and Import Permits Act, Group 5) "as having substantial military applicability, and which have been specially designed or modified for military purposes." Further, if exercised, the contract option may involve Controlled Goods.
