**REQUEST FOR PRICE AND  
AVAILABILITY**  
**DEMANDE DE PRIX ET DE  
DISPONIBILITÉ**

This is not a bid solicitation but an inquiry for the purpose of obtaining price and availability information for the goods, services, and construction specified herein. The information requested herein is for budgeting and planning purposes only. Contracts will not be entered into on the basis of suppliers' responses.

Il ne s'agit pas d'une invitation à soumissionner mais d'une demande de renseignements sur les prix et la disponibilité des biens, services et construction spécifiés aux présentes. Les renseignements demandés aux présentes sont nécessaires uniquement à l'établissement du budget et à la planification. Les marchés ne seront pas attribués suite aux réponses des fournisseur/entrepreneurs.

# **Maritime Satellite Communications Upgrade (MSCU)**

## **Price and Availability (P&A)**

### **Request**

Canada is seeking price and availability (P&A) for:

- A) OPTION 1: twenty-eight (28);
- B) OPTION 2: thirty (30), and;
- C) OPTION 3: thirty-two (32)

single antenna marine, dual-band, satellite communication (SATCOM) terminals. It is anticipated that a Request for Proposals (RFP) may be released by September 2013.

This is neither a call for tender nor a RFP. Neither agreement nor contract for the procurement of SATCOM terminals will be entered into solely as a result of this P&A request.

Any discussions on this subject with project staff representing Department of National Defence (DND) or Public Works and Government Services Canada (PWGSC) or any other Government of Canada representative shall not be construed as an offer to purchase or commitment by DND, PWGSC, or the Government of Canada as a whole. Any and all expenses incurred by industry in pursuing this opportunity including the provision of information and potential visits are at industry's sole risk and expense.

After review of all the information packages, the project staff may request additional information from the respondents. The Government of Canada, through the PWGSC representative, may contact respondents for further information.

In order to qualify to participate and provide a quote for this P&A, the system quoted must be in production and in service prior to issuing the quote. The system must also meet the following technical requirements at the time of the quote.

- a. The system shall be capable of transmitting on Ku-band and X-band.
- b. The system shall be capable of providing a sustained data rate of at least 1.5 Kbps.
- c. The system's Ku-band configuration shall be compatible with all major Ku-band satellite communication service providers which include (but not limited to) Telesat, Intelsat, and Eutelsat.
- d. The system shall be able to continuously track and maintain connectivity with geostationary satellites while being subjected to ship motion of up to 10° pitch and 30° roll on either side of the vertical.
- e. The above deck antenna assembly shall not exceed 300 kilograms, and its radome diameter shall not exceed 1.9 meters.

While not a requirement to participate in the P&A, Canada does intend to make Wideband Global Satellite (WGS) certification a mandatory requirement to participate in any future RFP process.

**Deliverables:**

Vendors are requested to provide the information in three (2) hard copies and one (1) soft copy.

Responses shall be directed to:

Kathie Eddy  
Public Works and Government Services Canada  
Electronics, Simulators and Defence Systems Division - QF  
11 Laurier Street  
Gatineau, Quebec K1A 0S5  
Telephone : 819-956-0768  
Fax : 819-956-5650

All enquiries and other communications related to this P&A shall be directed exclusively to the PWGSC Contract Authority identified herein either by phone (819-956-0768) or e-mail (kathie.eddy@tpsgc-pwgsc.gc.ca). All enquires must be submitted to the PWGSC Contract Authority no later than five (5) calendar day before closing date. Enquires received after that time may not be answered.
