This amendment #003 is raised to modify solicitation EW479-120844 /B as follows:

DELETE: 02:00 PM on 2012-03-06

INSERT: 02:00 PM on 2012-03-08

AND

This amendment is raised to answer the following questions that was submitted:

Question 1:

Under Category D in Appendix 1 to Annex A it states that a Project Manager must have "experience as a Project Manager with Canadian Federal, Provincial or Territorial Government(s)". Does this mean that a Project Manager must have project management experience as an employee of a Federal, Provincial or Territorial Government(s)? Is it acceptable if a proposed resource was a Project Manager of a contract awarded to his/her company by a government agency?

Answer: 1

The project manager must have project management experience either as an employee of the public agencies noted or as a contractor to one of the public agencies noted.

Question 2:

Under Scope of Work (p.18) it states: "As related to the applicable resource category in which the Supplier is providing services, the Supplier must provide any reports, written advice, tables, samples, maps and other related documents..." Does this refer the types of deliverables that may be required from any given contract awarded through the Supply Arrangement? Or, do we have to supply examples of these types of documents with our proposal?

Answer 2:

This section of the scope of work refers to types of deliverables that may be required as part of a call up through a successful Supply Arrangement. If the potential supplier believes that examples of past work (including these types of deliverables) would strengthen their proposal they may be submitted as part of their proposal.

Question 3:

We offer several different types of laboratory analyses (i.e. species identification, ageing, etc). The cost per analysis will vary depending on the type of analysis requested. In Annex B (Basis for Pricing), can we create a row and provide a cost per analysis for each type of analysis we offer?

Answer 3:

Yes, please create a row or append a spreadsheet with a cost per each type of analysis that your company offers.

Question 4:

With respect to the above noted solicitation, Appendix 1 to Annex A (Page 21-23) has no resources requirements for Human Health and Community Wellness. Yet on page 17 it requests "Fields of Expertise" for this. Please clarify.

Answer 4:

The resource requirements mentioned in Annex A are designed to be broad enough to incorporate the field of "Human Health and Community Wellness". For example the qualifications and experience of an Environmental Scientist and/or a Research Scientist could include experience in Human Health and Community Wellness.
