Question:

With respect to the subject RFP - Task Based Informatics - W6369-12P5TO/A

We have noted the requirement, under "Basis of Selection", that the Crown is determined to award two contracts. The contracts would be awarded to the TWO lowest priced compliant bidders. This strikes us as being somewhat odd. Could the Crown kindly clarify that the entirety of the requirement is indeed for 28 total resources? If a bidder is required to propose a 14 member team, and if that bidder is determined to be the lowest cost and compliant bid, then why would that bidder not be awarded the entirety of the contract?

The Crown's breakdown seems to indicate that even a successful bid will not be awarded the only contract, and that in fact, the successful bidder will be rewarded with as little as 50% of a contract wherein they were the lowest cost, compliant bid.

However, if the Crown is concerned, as it might seem, that the incumbent vendor will not be able to provide all 14 resources, possibly based upon historic delivery results, would the Crown then, kindly consider lowering the requirement to 7 resources such that awarding two contracts would make greater sense.

Answer:

Canada has identified a need for two separate sources of Supply for this requirement. No changes will be made to the Basis of Selection. No changes will be made to the number of resources required under each Contract.
