## PART 2 – OFFEROR INSTRUCTIONS

### 1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the Request for Standing Offers (RFSO) by number, date and title are set out in the Standard Acquisition Clauses and Conditions (<https://buyandsell.gc.ca/policy-andguidelines/standard-acquisition-clauses-and-conditions-manual>) Manual issued by Public Works and Government Services Canada.

## PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

### 1. Evaluation Procedures

(a) Offers will be assessed in accordance with the entire requirement of the Request for Standing Offers including the technical and financial evaluation criteria.

(b) An evaluation team composed of representatives of Canada will evaluate the offers.

(c) The evaluation team will determine first if there are three (3) or more offers with a valid Canadian Content certification. In that event, the evaluation process will be limited to the offers with the certification; otherwise, all offers will be evaluated. If some of the offers with a valid certification are declared non-responsive, or are withdrawn, and less than three responsive offers with a valid certification remain, the evaluation will continue among those offers with a valid certification. If all offers with a valid certification are subsequently declared nonresponsive, or are withdrawn, then all the other offers received will be evaluated.

(d) Firstly, Representatives of Canada will evaluate MTS1 and MTS2.

(e) Secondly, only Offers meeting MTS1 and MTS2 will then be financially evaluated (refer to MFC1).

(f) Lastly, and prior to being issued the SO, MTS3 will only be evaluated only on the offer with the lowest financial price.

CORCAN will provide that Offerer with six (6) colour samples on metal swatches for the required colored paint.

The Offerer will then be given a maximum of three (3) weeks to provide paint matches for each of the 6 samples provided. The Offerer must then return the samples to CORCAN, at the Offerers own expense. CORCAN will review those samples for accuracy of colour only. Once accuracy of colour has been confirmed, the Offerer must provide testing demonstrating that painted components offered pass:

- a) Canadian General Standards Board - CAN/CGSB-44.227-2008 Freestanding Office Desk Products and Components paint finish testing section 5.2.2 and 5.2.4, and
- b) Colour stability CGSB-1-GP-71 scratch resistance ASTM-D3363 hardness H.

(g) Should the Offerer's colour matched pieces pass both the above referenced performance standards; they will be issued the Standing Offer. Failure to pass either of the above performance standards will render the offer non-compliant. In this situation, the offer with the second-lowest evaluated priced and compliant offer will be recommended for SO issuance, and will follow the same procedure described above. This process will continue as required, until a Standing Offer is issued.

## PART 5 – CERTIFICATIONS

Offerors must provide the required certifications and related documentation to be issued a standing offer. Canada will declare an offer non-responsive if the required certifications and related documentation are not completed and submitted as requested.

Compliance with the certifications offerors provide to Canada is subject to verification by Canada during the offer evaluation period (before issuance of a standing offer) and after issuance of a standing offer. The Standing Offer Authority will have the right to ask for additional information to verify offerors' compliance with the certifications before issuance of a standing offer. The offer will be declared non-responsive if any certification made by the Offeror is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications, to provide the related documentation or to comply with the request of the Standing Offer Authority for additional information will also render the offer non-responsive.

### 1. **Mandatory Certifications Required Precedent to Issuance of a Standing Offer**

#### 1.1 **Code of Conduct and Certifications - Related documentation**

By submitting an offer, the Offeror certifies as per section 01 of Standard Instructions 2006, for himself and his affiliates, to be in compliance with the Code of Conduct and Certifications clause of the Standard instructions. Failure to comply with the request of the Standing Offer Authority and meet the requirements within that time period will render the offer non-responsive.

##### 2.1.1 **Federal Contractors Program - Certification**

1. The Federal Contractors Program (FCP) requires that some suppliers, including a supplier who is a member of a joint venture, bidding for federal government contracts, valued at \$200,000 or more (including all applicable taxes), make a formal commitment to implement employment equity. This is a condition precedent to the issuance of a standing offer. If the Offeror, or, if the Offeror is a joint venture and if any member of the joint venture, is subject to the FCP, evidence of its commitment must be provided before the issuance of a standing offer.

Suppliers who have been declared ineligible contractors by Human Resources and Skills Development Canada (HRSDC) are no longer eligible to receive government contracts over the threshold for solicitation of bids as set out in the Government Contracts Regulations. Suppliers may be declared ineligible contractors either as a result of a finding of non-compliance by HRSDC, or following their voluntary withdrawal from the FCP for a reason other than the reduction of their workforce to less than

**9. ENVIRONMENTAL CONSIDERATIONS**

- a. The components should be designed and the material should be selected to minimize waste and environmental impact both during the production process and in the post-consumer stages.
- b. The components should be designed to allow the disassembly of major components to accommodate reuse or recycling of materials for which there are proven recycling markets. The metal and the plastic components of a product should be composed of recycled materials whenever possible. Where possible, all major plastic components should be stamped with a composition code to facilitate recycling.

## 9.1 Resource Input

10.1.1 When provided painted, metal components must be finished using low volatile organic compound (VOC) content or non-toxic surface coatings.

9.1.2 Steel used in the manufacturing of components must contain a minimum of 25% recycled content

9.1.3 All plastic components must be recyclable at the end of their life.

Replacement components must be available to replace broken pieces during the Warranty period.

## Annex B

### Basis of Payment

In consideration of the Work satisfactorily performed in accordance with the Standing Offer, and in accordance with the resulting call-ups, the Offeror will be paid in accordance with the following Basis of Payment. Custom Duties are included, and Goods and Services Tax or Harmonized Sales Tax and Delivery is extra, if applicable.

#### \*Establishing Firm Unit Prices

1. If the Standing Offer period is extended, prices will be established using the Industrial Price Index (IPI), published in the Statistics Canada Catalogue No. 62-011-X, Table 2-10 – Furniture and Fixtures, section Office Furniture Record Equipment, metal (v53433612) (refer to X/2011012/t051-eng.htm) as in articles 4.3.2 – 4.3.6 below.
2. Prices will be calculated during the months of March or April or May, in each of the years 2015, 2017, 2019, and 2021, using the reference month of January, or the latest release of the IPI available to PWGSC but not greater than three months prior to the month of the calculation.
3. The firm unit prices for the initial Standing Offer period will be increased or decreased or remain unchanged as a result of the calculation. The resulting prices for the extension period will be firm. Prices for each subsequent extension period will be determined the same way, using the firm prices in effect for the Standing Offer period immediately prior to the extension period.
4. A percentage change will be determined and applied to the firm unit prices for the SO period immediately prior to the extension period. The percentage change is determined as follows:

Escalation Factor Calculation:

- i) Annual Average of the Indexes for Office Furniture Record Equipment, metal (v53433612) from the current year (A)
- ii) Annual Average of the Indexes for Office Furniture Record Equipment, metal (v53433612) from one year prior to the current year (B)
- iii) Annual Average of the Indexes for Office Furniture Record Equipment, metal (v53433612) from two years prior to the current year (C)
- iv) D1 (escalation factor 1) = "B" / "C"  
D2 (escalation factor 2) = "A" / "B"
- v) Adjusted firm unit price = (Initial Firm price x D1) x D2

5. The percentage change is limited to a maximum of +5% or -3%.  
 Percentage Change =  $(D - 1) \times 100$
6. Each Standing Offer period firm unit price will be multiplied by the percentage change, subject to the maximum percentage change.

**Example:**

Assume we are currently in February 2011, and need to adjust the Standing Offer firm unit prices for the upcoming extension period - April 2011 to March 2013.

**Calculation:**

- i) The annual average of the Indexes for Office Furniture Record Equipment, metal (v53433612) for 2011 = **116.8(A)**
- ii) The annual average of the Indexes for Office Furniture Record Equipment, metal (v53433612) 2010 = **116.3 (B)**
- iii) The annual average of the Indexes for Office Furniture Record Equipment, metal (v53433612) 2009 = **117.00 (C)**
- iv) Escalation factor from 2010 to 2009: "D<sup>1</sup>" 0.994 = 116.3 / 117.0
- v) Escalation factor from 2011 to 2010: "D<sup>2</sup>" 1.004 = 116.8 / 116.3
- vi) Percentage change =  $(D - 1) \times 100$
- vii) Adjusted firm unit price =  $(\text{Initial Firm price} \times D^1) \times D^2$
