Amendment 008

This amendment 008 has been raised to amend and incorporate the following information into Solicitation No. 45045-120038/A:

1. Solicitation Closing Date

The closing date for this requirement has been changed to 22 February 2013 at 2:00 p.m. PST.

2. On Page 22 of Annex "B" - Basis of Payment:

INSERT:

2.4 Provincial Electronics Disposal Surcharge

If the Product is delivered to a province that has in place a provincially legislated electronics disposal surcharge, all prices are exclusive of this surcharge (if applicable) unless otherwise indicated. The surcharge is extra to the price and will be paid by Canada to the Contractor who will bear full responsibility for remitting any such surcharges to the appropriate authority.

Question and Answer

Q1: Would Statistics Canada consider changing the Minimum Print resolution quality in dpi, in Categories 1,2,3,4, and 7 from 1200x1200 dpi to 600x600 dpi as this would increase competition and help reduce costs.?

The current specifications require less resolution (in dpi) for colour units than mono units.

A1: Statistics Canada agrees to change to Minimum Print Resolution Quality to 600 x 600 dpi in categories 1, 2, 3, 4, 5 and 7.

Q2: For Categories 5, 6, 8 and 9 the evaluated volume is shown as a total monthly volume and not broken down between mono and colour per month. Are we to assume that the evaluated monthly volume on the colour machines is all colour? If not please provide the monthly volume in colour and monochrome for the referenced categories.

A2: Current colour usage is approximately 40% of the stated monthly volumes for Categories 5, 6, 8 and 9.

Q3: With respect to Category 8 the output capacity requirement is 250 sheets. Given the Solicitation implies that the goal is the uses confidential/secure printing where the job will not be printed until the user is standing at the device would a machine that meets or exceeds all other requirements but has an output capacity of 150 sheets be acceptable to Statistics. If not most eligible bidders will have to over spec in this category and Statistic will definitely not get the best value technical solution which is the ultimate goal.

Please accept an output capacity of 150-sheets for Category 8.

A3: We will accept 150 sheets output capacity for Category 8.

All other terms and conditions remain unchanged.
