This solicitation amendment 006 is raised for the following;

1. Extend the bid closing date to 07 September 2012 at 2pm EDT.
2. Answer bidder enquiries.

Question #1:

The original vehicle chassis for this Solicitation specified a single axle 4x4 chassis. The specification has now changed to a tandem axle 6x6 chassis. 3.10.2(a) refers to a rear suspension for a single axle vehicle. A suggestion for the rear suspension as per 3.10.2 (a) for a tandem axle vehicle in this application would be a Hendrickson HMX 400. Would this suspension be acceptable?

Answer: The PD has been amended to also include rubber bloc suspension for the rear.

Question #2:

We would appreciate your direction with Item 3.6.5 (b) Have components routed under the frame; With the updated configuration of a 6x6, the exhaust componentry is not available routed under the frame. The under frame routing would result in a diminished road clearance and as such is not offered in the 6x6 configuration. Would a different version of the exhaust system (side frame mounted) which would be meeting the remainder of the specification as per 3.6.5 Exhaust System be considered acceptable?

Answer: We have changed the requirement to a shall^(E). The equivalent proposed will be evaluated with the bid.

3. Amend Annex "B" - Purchase description;

At Annex "B", item 3.10.2

Insert: (c) Rubber bloc suspension equipped with torque rods

At Annex "B", item 3.6.5

Delete: The exhaust system *shall*

Insert: The exhaust system *shall* ^(E)

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME
