**INTERIM CF EXTREME COLD WEATHER MUKLUK ASSEMBLY (ECWM)**

Solicitation Amendment No. 005 is raised to advised that the technical requirements at the pre-award sample stage are revised as follows:

At Annex F, Pre-Award Technical Evaluation Plan, paragraph 1.2.2 (Material Substitutions):

Add the following paragraphs:

1.2.3 Colour Substitution Only - Upper Components: At the pre-award stage, if bids contain physical examples and certificates of compliance for upper components that are CADPAT™ WO but not fully compliant in regards to colour (Chromaticity Coordinates and Luminance and Specular Gloss) than stated in Annex B paragraph 2.2.1, a letter identifying deviations in colour is essential/mandatory in order for the bids to be considered compliant.

1.2.3.1 To qualify for this deviation, the material performance must be compliant and merely the colour differs from that stated in Annex B paragraph 2.2.1. The material performance must show compliance to all other requirements for the upper materials (with the exception of colour and infra-red reflectance) stated in Annex F, Table II (Mandatory Material Testing Information).

1.2.3.2 The letter must state, if awarded a contract, that the colour of the upper components will be fully compliant to Annex B paragraph 2.2.1 at the pre-production stage and in production. Note that points available in the Bid Evaluation Rated Requirements (Annex D) for Infra-Red Reflectance will be provided only if the mandatory requirements for colour of the upper components are compliant. If the mandatory colour requirements are not met, bonus points for Infra-Red Reflectance will not be awarded.

All other terms and conditions remain the same.

A bid already submitted may be amended prior to RFP closing time by sending the amended correspondence to Bid Receiving Unit, the envelope/message bearing the PWGSC file number and the most current closing date.
