Answer 1

The enclosed shelving is for files being accessed daily and boxed files.

The open shelving is for anything that certain unit needs to store. The specification calls for heavy duty shelving.

3.

Question 2

Please confirm the weight per shelf for the shelving identified as "Closed" Type - keeping in mind 650 lbs. Per shelf is not necessary for file or banker box storage.

Answer 2

The closed type is to be 650 lbs. Per shelf so the shelving is more versatile and could be used for another unit or other storage requirements.
