Solicitation Amendment 002 is issued to clarify the following:

Question:

Section 6.14.9 of the Specification in Annex "A" states that the vehicle should be equipped with manual reset electrical circuit breakers. Our offering has automatic reset circuit breakers and fuses. Is this acceptable?

Answer:

Yes.

Question:

Our largest front axle available in a 4x4 application is 18,000lbs. The tender is asking for 20,000lbs. Also, the unit only comes in a set forward axle design - set back 32". Is this acceptable?

Answer:

Clause 2.2: change "... shall be a minimum 19,504 kg (43,000 lb) GVWR ..." to "... shall be a minimum 18,597 kg (41,000 lb) GVWR...".

Clause 6.1: change "... shall be 19,504 kg (43,000 lb) ..." to "... shall be 18,597 kg (41,000 lb) ...".

Clause 6.5.1: change "... front shall be 9072 kg (20,000 lb) ..." to "... front shall be 8,164 kg (18,000 lb) ...".

Clause 6.8.1: change "... minimum capacity of 9072 kg (20,000 lb) ..." to "... minimum capacity of 8,164 kg (18,000 lb) ...".

A set forward axle design - set back 32" is acceptable.

Specification Clarification:

Section 6.3.2 "The engine shall have a minimum 330 net horsepower rating. Manufacturer's published literature or performance tests indicating the values noted must be supplied." shall now read "The engine shall have a minimum 350 net horsepower rating. Manufacturer's published literature or performance tests indicating the values noted must be supplied."

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED
