Title: Development of a Compact Short-Wave Infrared Camera

Amendment to the solicitation **no. 006**

You will find below questions which were asked by potential tenderers. You must take into account this information at the time of presentation of your proposal.

**Question 6.1**

«In Annex A, section 3 Scope of Work, requirement "Optics" (page 34 of 40):

The requirement is "MTF > 0.5 at 40 lp/mm everywhere in the image plane". There seems to be a discrepancy between the provided sensor pixel pitch and the MTF requirement. The pixel pitch of 25 um (stated at page 33 of 40) implies a detector MTF of 0 at 40 lp/mm. It is typical to define the required MTF at the Nyquist frequency, 20 lp/mm in this case. We therefore assume a requirement of MTF > 0.5 at 20 lp/mm instead of 40 lp/mm. Please confirm».

**Answer 6.1**

We wish to keep the requirement "MTF > 0.5 at 40 lp/mm everywhere in the image plane" as is. We want the optics to be suitable for a smaller pitch detector that could eventually be used.

Unless otherwise indicated, all other terms and conditions of the Solicitation remain the same.
