QUESTIONS AND ANSWERS

Note, questions are numerically sequenced upon arrival at PWGSC. A question and its answer will be provided via MERX as the response becomes available. Potential bidders are therefore advised that questions and answers may be issued via MERX out of sequence. The following questions have been received from potential bidders. In accordance with Article 13 under 2003 Standard Instructions - Goods or Services - Competitive Requirements (2012-11-19) which has been incorporated into the Request For Proposals (RFP) in accordance with Article 2.1 (c) of the RFP, the questions and corresponding answers are provided to all potential bidders as set out below:

Q42. SOW 6.14(7j). Is a FIPS (140-1 level 2) VPN required or an ssl encrypted channel using TLS v1 with IP restrictions acceptable?

A42. The department interface must include a secure network connection that meets the RCMP standards. Specifically MSFT client with a cross chain PKI. The solution must meet the RCMP security requirements and standards. In addition the RCMP requires that all flows of information be initiated by the RCMP. In other words, the RCMP will pull data from the Contractor and push data to the Contractor. No initiation of communication from the Contractor's system/network to the RCMP will be permitted

Q66. No response to be provided.

ALL OTHER TERMS AND CONDITIONS OF THE RFP REMAIN UNCHANGED.
