THE FOLLOWING QUESTIONS WERE SUBMITTED AND THE ANSWERS ARE PROVIDED BY THE DEPARTMENT OF NATIONAL DEFENCE;

Question 6:

With regard to the subject TDP drawing number 8877882, items 14, 20, and 27 do not have enough information to properly determine what is required.

Specifically:

- a. What is a "unit" of dessicant – type of desiccant it is, (clay, silica or molecular sieve), a unit size (how many grams) and a bag type (GDTIL, KRAFT, TYVEK);
- b. The number 991 00 59 0042 (beside #20) is not long enough to be a NSN and when searched turns up no useful results;
- c. The descriptor VF 1531 is not particularly helpful for #27.

Answer 6:

- a. Please refer to standard MIL-D-3464, type 2 for the requirements of the dessicant. As per drawing 8877882, we require 88 units of dessicant per container.
- b. For item 20 of drawing 8877882, required is qty 2 of part# 991 00 59 0042 under NCAGE S7622.
- c. For item 27 of drawing 8877882, required is qty 2 of part# VF 1531 under NCAGE S7237.

Question 7:

Pg. 3, Item 1, NSN 8145-21-907-6111, shipping and storage, container, engine, part # 8877806-1. Reference drawing # 8877806, item 28, washer part # 480 A36 0058

The supplier has identified this part as "no longer available as spare part", could you please comment on possible replacement or further information that would be available on this part in order to source replacement?

Answer 7:

Required is a M14 steel lock washer as per DIN 127-B14-FST-A3C.
