This amendment 001 is raised :

- To add a requirement criterion to the shredder;
- To remove unnecessary paragraphs from the solicitation; and
- To answer potential Bidders questions.

* At *Line Item Details* page:

Delete:

Hard Drive Shredder kit with Integrated HEPA Air Filter, as per Annex A.

Option for up to one (1) additional hard drive shredder kit as per Annex A, within twelve (12) months of contract award.

P/N offered: _____

NSCM offered: _____

Insert:

Hard Drive Shredder kit with Integrated HEPA Air Filter, as per Annex A.

***** *Hard Drive Shredder must be RCMP approved.***

BIDDERS MUST PROVIDE PROOF OF APPROVAL/CERTIFICATION.***

Option for up to one (1) additional hard drive shredder kit as per Annex A, within twelve (12) months of contract award.

P/N offered: _____

NSCM offered: _____

* At Part II, remove paragraph 1.2 Equivalent Products.

* At Part II, remove paragraph 1.3 Substitute Products.

* At Part 4:

Delete:

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

The following **Mandatory** factors will be taken into consideration in the evaluation of each bid:

Mandatory Certifications Required Precedent to Contract Award as specified in Part 5;
Technical compliance (description of item 1 at *Line Item Detail* section herein);
Acceptance of terms and conditions as mentioned in the bid solicitation;
Completion of the proposal.

2. Hard Drive Shredder:

Evacuation must be made through a discharge conveyor.

Technical Specifications:

Drive Capacity/Speed	Minimum of 35 per minute
Shred Size	0.25" to 0.75" wide
Power/HP	Between 18 and 20 HP, 575V, 3 Phase
Hour Meter	Included
Throat Width	Not less than 11" x 2.5" Feed Opening
Maximum Dimensions (W x H x D)/Weight	65" x 66" x 47.25" (Depth w/conveyor ~ 93")/2,800 Lbs

Insert:**2. Hard Drive Shredder:**

***** Hard drive shredder must be RCMP approved.**

BIDDERS MUST PROVIDE PROOF OF APPROVAL/CERTIFICATION.***

Evacuation must be made through a discharge conveyor.

Technical Specifications:

Drive Capacity/Speed	Minimum of 35 per minute
Shred Size	0.25" to 0.75" wide
Power/HP	Between 18 and 20 HP, 575V, 3 Phase
Hour Meter	Included
Throat Width	Not less than 11" x 2.5" Feed Opening
Maximum Dimensions (W x H x D)/Weight	65" x 66" x 47.25" (Depth w/conveyor ~ 93")/2,800 Lbs

*** Questions and Answers:**

Q1: *What size drives are expected to be destroyed by the shredder? Some of the older drives are quite large & heavy. What is the maximum size/weight to achieve the minimum 35/minute? Does the shredder have to be 575V 3 Phase or are other voltages permitted so long as the output is achieved?*

A1: For any hard drives that are large and heavy the process is to dismantle and recycle the material. This requirement focuses on normal sized hard drives from PC, and laptops, as these are the type normally sent for disposal.

Secondly - 575 V is required as it is to support an internal vacuum/Hepa air filtration system, and needs to be able to handle the anticipated volume of hard drives this shredder will process. Also,

the nearby electrical panel connecting this machine supports 600V which will allow the end user to connect it with no additional financial commitment.

Q2: *The Hard Drive Shredder should it be RCMP approved? The material that is to be destroyed with the Hard Drive Shredder may have a classification that requires the client to destroy to a particular size as required by Treasury Board and or RCMP and the equipment may have had to be tested to meet these requirements.*

A2: This machine needs to be RCMP approved. Level II secret and top secret electronic material will be dealt with by double degaussing, disassemble and disintegration to RCMP specifications in an HD 22 disintegrator to the sizes supported by RCMP standards. All other Hard drives, and electronic material (less than Secret Level II), will be destroyed by the procured machine and must be able to handle the volume in short time frame.

*** All other terms and conditions remain unchanged. ***
