Amendment 005

Amendment 005 is raised to provide the Mandatory Site Visit minutes, answers to bidder questions and extend the bid closing date.

Minutes of the Mandatory Site Visit held at 111 Sussex Dr. in Ottawa, Ontario on 15 March 2013 at 10:00 AM.

Attendees:

Bill Archibald	Applied Electronics Limited
Brad Fairholm	Duocom Canada Inc
Vince Marcantonio	Genesis Integration Inc.
Chad Vokey	Genesis Integration Inc.
Gil Berkelaar	Interactive Audio Visual
Bob Guy	Interactive Audio Visual
Mike Fawcett	Panasonic
Martin Vaillant	Solotech
Travis Shorten	Telus Communications

Eric Harvey	ECM Technical Staff
-------------	---------------------

Jean-Yves Hamel	PWGSC Contracting Authority
Michael Cooper	PWGSC Supply Team Leader

All bidders signed the attendance form.

Summary of the Visit:

The visit started with a brief introduction/speech where the PWGSC Contracting Authority welcomed all bidders and introduced the PWGSC Supply Team Leader as one (1) of the two (2) PWGSC AVSO/VCSO Authorities and the direct supervisor of the Contracting Authority. The PWGSC Contracting Authority then introduced the ECM Technical Staff. The PWGSC Contracting Authority then proceeded to review the Request for Proposal/SoW and field bidder questions.

There were no bidder questions relating to the RFP.

Bidder questions/answers of a general nature and relating to the SoW:

Q1 Please expand on why ECM will not accept I/O cards?

A1 After a review of the requirement, ECM will accept I/O Cards.

Q2 When will ECM provide AUTOCAD floor plans of Victoria Hall?

A2 ECM has received the information from SNC Lavalin - The drawing is provided below.

Q3 When will ECM provide a wiring drawing of the equipment rack in Victoria Hall?

A3 The winning bidder will be provided an AUTOCAD a wiring drawing of the equipment rack in Victoria Hall.

Q4 Will the new projectors each require a transmitter and a receiver?

A4 Yes - Each projector requires one (1) Crestron DM-TX-201C Transmitter and one (1) Crestron DM-RMC-1000-C receiver - In total, the requirement requires three (3) of each.

Q5 Can ECM provide the size of the conduit which will be installed by SNC Lavalin?

A5 SNC Lavalin wil install 2" conduit from behind to rack to the exact projector location specified by the contractor prior to the start of the work.

Q6 What is the output from the existing VISTA URS 1608 to the projector?

A6 Three (3) outputs each with one (1) DVI-I and one (1) 3G HDS DI (SMPTE 424M).

-
- Q7 With the stage and the ceiling lights in Victoria Hall, is ECM certain that a 150" x 300" Projection Screen will fit without the projected full screen image being obstructed by either the presenter standing on the stage or the hanging ceiling lights?
- A7 The ceiling is 21' above the floor (252"). 252" minus 18" for the projection screen mounting box minus 150" for the screen leaves 84" for the presenter. ECM has determined that there is sufficient room to project a full screen image without being obstructed by the presenter standing on the stage. ECM is also aware that the hanging ceiling lights may partially obstruct the top of the projection screen. There may be a future need to remove the lights however, ECM has determined that the lights will not be removed at this time.
- Q8 How does ECM want the connections to be terminated to the equipment rack (Front plate, back of the rack, ...)?
- A8 ECM wants the connections to terminate directly to the three (3) outputs of the Vista URS 1608 from question 6 above. The projector control will need to be connected to an existing D'LINK network router.
- Q9 Must the projector be 3D capable?
- A9 No.
- Q10 Is the 3G HDSDI input a mandatory requirement or will a HD-SDI be acceptable?
- A10 ECM will accept an HD-SDI input (SMPTE 372M minimum).
