Question:

Ref: para 4.3 (c) (ii) "If a Bidder quotes a firm per diem rate for any Resource Category that is lower than the median, the median per diem rate will be used to evaluate that Bidder's proposal for this Resource Category."

If Canada receives 6 or more bids, it is quite possible that 3 (or more) bids will have all their rates evaluated at the median, and be tied for the win. In that case, will Canada award more than two contracts, or how will the tie be broken? Since there are no Rated technical requirements, it will not be possible for the technical evaluation to break the tie. To be consistent with the financial evaluation methodology, which rewards the bids below and yet closest to the median, we would recommend: "In the event that the financial evaluation results in more than two Bidders being tied, the contracts will be awarded to the two Bidders whose quoted firm per diem rates are closest to (and below) the medians."?

Answer:

In the event of a tie resulting from use of the median calculation, the bid with the lowest actual cost submitted will be recommended for contract award.
