#### **Question 001:**

The Tender refers to a MPT 1327 Portable Radios and Accessories but does not refer to the specific one that is presently being used. What is the make and model of the MPT 1327 portable radio presently being used?

#### **Answer 001:**

#### **Question 002:**

The Tender asks for the Bidders to submit one prototype with the proposal which responds to the Tender. In the event that for that prototype, for one of the mandatory requirements under the Table in para. 1.1.1, the Bidder will not be compliant at the time of the prototype submittal, but the Bidder will guarantee that for the 1st batch of 50 systems he will be compliant, then will the Bidder be disqualified in such a case?

#### **Answer 002:**

Yes. It must meet all the requirements at the time of bidding including type approval for use in Canada by Industry Canada.

#### **Question 003:**

What is the Estimated Contract Award date for the delivery of the 50 system batch?

The closing date for the Tender is 19 December, 2012. Once all the proposals have been received, reviewed, evaluated and the chosen Contractor meets all the selection criteria, a contract will promptly be awarded.

#### **Question 004:**

After Contract Award, what is the Delivery Schedule for the 50 system batch?

#### **Answer 004:**

The Delivery Schedule of the 50 radios is scheduled for receipt within six weeks of contract award.

**Question 005:**

The proposal submittal date, as stipulated in the Tender, is 19 December 2012 i.e. in 5½ weeks. Can Public Works provide an extension to 18 January 2013? Please consider the fact that many companies, especially in Europe, have lengthy Christmas holidays which conclude on 08 January 2013.

**Answer 005:**

No extensions will be granted. CBSA have an operational need that cannot be delayed any further.
