## **Ottawa-Gatineau Climate:**

Ottawa-Gatineau has a continental temperate climate; warm humid summers, and cold and snowy winters, particularly in January. Expect wide temperature variations in each season. In the summer, daytime temperatures of 30 °C (86 °F) or higher are commonplace. Ottawa averages many days with **humidex** (combined temperature & humidity index) between 30 °C (86 °F) and 40 °C (104 °F) annually. The **humidex** is an index number used by Canadian Meteorologists to describe how hot the weather feels to the average person, by combining the effect of heat and humidity.

In July and August the average high temperature is 26.4 °C (79.5 °F) and the daily low is 14.3 °C (57.5 °F). The humidex on June 28, 2012 was 40. The average precipitation in July and August is 88.9 mm (3.5 inches) and 87.6 mm (3.4 inches) respectively.
