This Solicitation Amendment Four (4) is raised to include the following addendum.

The following addendum to the tender documents is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Addendum No. 4.

1. Comments / Clarifications from the bidders site visit held June 28th

New Staff Parking - Due to environmental concerns, the area that can be excavated at anyone time is to be limited. Also, existing visitor parking is to remain open while construction is taking place. For these reasons, we would expect the contractor to prepare a part of the new staff parking. Once the area is sufficiently prepared to allow vehicles to park, the remaining area (including the existing visitor parking) could be prepared as required

Contractor is responsible for of site disposal of materials.

Locations and depths of underground utilities are approximate. Contractor is responsible for locating prior to excavation.

Contractors are reminded that:

- √ The work schedule requirements are outlined in the specification documents
- √ Two CSC security vehicles are move around the perimeter fence on the PIDS road continuously. They will be given priority access, even during construction.
- √ The Sally Port will also remain operational for staff and contractors working inside the perimeter fence of the institution.

2. DRAWINGS
