AMENDMENT 002

The purpose of this amendment is to answer questions from potential bidders.

Questions 5, 6 and 7 pertain to the exhibit project samples which bidders are required to provide for Phase 1 of the solicitation process. Please refer to Part 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION, mandatory technical criteria - M.3 - Experience of the firm.

Question 5:

Reference: Type of materials used in the fabrication process

In multimedia projects, we use few materials, mostly accessories like stools, projection screens, and audiovisual and technological equipment. To detail all of the technological materials and software would be far too long and complex to do. Can you provide more details on what it is you require?

Answer 5:

It is not necessary to include an extensive list of software and technological equipment, but to identify the types of materials used to build elements that are part of the immersive multimedia experience. For example, furniture, scenic decor, projection structures etc.

Question 6:

Reference: Project Stages

When speaking about project stages, are you referring to the mandate that was given to the firm?

Answer 6:

Yes, that is correct.

Question 7:

Reference: Exhibit Designer

If the "Exhibit Designer" is part of our firm, the work completed as stated in point 7), i.e. design, fabrication, installation, dismantling, maintenance and repairs (as applicable) should be the same as point 9)?

Answer 7:

Yes, that is correct.

Question 8:

Reference: Errors and Omissions Liability Insurance

We have a Commercial General Liability Insurance which satisfies your requirements. However, we have also consulted with our insurer regarding the Errors and Omissions Liability Insurance. It seems there are various types of coverages available. Can you specify the type of errors and omissions liability insurance we will require if a contract is awarded to our firm?
