**This amendment is raised in order to to post questions and answers received up to June 29, 2012 and to modify Annex H- Basis of Payment**

**Q.1**

Do you have typical quantities per shipment and number of shipments per year?

**A.1**

Estimated number of calibrations per year is presented at Annex D of the Clearing House Contractor (CHC) SOW. The CHC is responsible for ensuring all users have, at all times, their full entitlement of complete, correct, calibrated and properly configured Equipment. This must be achieved within constraints - including Support Stock limits, minimal exchanges annually with each user, Calibration Facility capacity, etc. Individual shipment content and timings are for the successful CHC to manage.

**At ANNEX H - BASIS OF PAYMENT****Remove:****1.1 SELECTION PROCESS**

1.1.1 The successful Bidder will be the Bidder with the lowest-cost technically-compliant proposal. Cost will be determined as the sum of the following (see Basis of Payment), HST extra:

- a. One-time Set-up Fee;
- b. Monthly Service and Administration Fee, for the first 12 months;
- c. Inspection Fees, for the first 12 months, using the estimated number of calibrations per year detailed in the SOW; and
- d. Time and Materials, presuming 200 hours of ad hoc labour and \$25K direct material costs in the first 12 months.

**And replace with:****1.1 SELECTION PROCESS**

1.1.1 The successful Bidder will be the Bidder with the lowest-cost technically-compliant proposal. Cost will be determined as the sum of the following (see Basis of Payment), HST extra:

- a. One-time Set-up Fee;
- b. Monthly Service and Administration Fee.
- c. Inspection Fees, using the estimated number of calibrations per year detailed in the SOW; and
- d. Time and Materials, presuming 200 hours of ad hoc labour and \$25K direct material costs.

**All other terms and conditions remain the same**
