Amendment #002

This Amendment is being issued to replace Section I - Technical Bid and Part 4 - Evaluation Procedures and Basis of Selection.

Section I: Technical Bid

3.1.1 Submission of Evidence

Submission of Evidence as described below should be included with the bidder's proposal at time of bid closing. However, if the following is not submitted with the bid by the bid solicitation closing date, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive. Bidders must provide the requirement described below to be awarded a contract.

The evidence provided by the bidder may be verified. PWGSC reserves the right to verify information for completeness and accuracy and to confirm reference satisfaction with services provided.

3.1.2 Employee Experience and Past Performance

To carry out the work on this requirement, the contractor must provide five (5) qualified service personnel (one (1) qualified Diesel Engine Technician, one (1) qualified Petroleum Mechanic, one (1) qualified Electrician, one (1) qualified Transfer Switch Technician, and one (1) Infrared Thermographer).

The bidder must provide evidence to demonstrate that the service personnel proposed to perform maintenance of Emergency Power Supply Systems have five (5) years of recent experience and past performance by referencing two (2) similar projects/contracts within the last 8 years whereby the service personnel have performed satisfactorily. The bidder must complete the form (RFP) for each personnel who will be performing work on the requirement in order to demonstrate that each proposed personnel has the required experience.

- Recent experience is defined as experience gained from January 2005 up to and including the solicitation closing date.
- Similar is defined as maintenance service on Emergency Power Supply Systems comparable in size, scope and complexity to the equipment listed in Annex A, Statement of Work, Part 3 Equipment Inventory.

In cases where experience is acquired concurrently, the time period will be considered only once for the purpose of calculating the minimum requirement of 5 years of recent experience.

Example:

- Project 1: started on January 1, 2008 and ended on May 31, 2008 = 4 months
- Project 2: started on January 1, 2008 and ended on December 31, 2010 = 36 months
- Project 3: started on January 1, 2008 and ended on December 31, 2010 = 36 months

Total period for these 3 projects will count as 36 months and not 76 months because the period Jan. 2008 to Dec. 2009 has already been counted in Projects 2 and 3. This employee does not meet the required minimum of 5 years of recent experience.

In the event where the information for any of the service personnel cannot be confirmed by the client contacts named in the proposal, the proposal will be considered non-responsive and no further consideration will be given to the proposal. If the Bidder submits names of service personnel in excess of the stated requirement, only the references up to the identified limit of five (5) service personnel will be assessed. The first five (5) service personnel listed in the proposal will be considered for evaluation.
