## AMENDMENT 002

### Fixed-Wing Search and Rescue Aircraft Replacement Project

#### Introduction

The purpose of this amendment (**002**) is to continue to share updated information as part of the Industry Engagement Strategy for the Fixed Wing Search and Rescue Aircraft Replacement (FWSAR) Project. The intent of the industry engagement is to better understand what industry has to offer, and to help the FWSAR project team progress the requirement definition activities. Specifically, feedback is sought on the information that can be requested from the FWSAR Secretariat.

To reach the FWSAR Secretariat, please use this address: [ARSVF.FWSAR@tpsgc-pwgsc.gc.ca](mailto:ARSVF.FWSAR@tpsgc-pwgsc.gc.ca)

#### UPDATED SCHEDULE

The FWSAR Secretariat plans to release a Draft Request for Proposal (RFP) in late summer 2013.

#### DOCUMENT TO CAPTURE OPERATIONAL PARAMETERS UPDATES

(Complementary to “FWSAR Essential Elements v.2.0”)

The FWSAR Secretariat is publishing this document to update some of the operational parameters. Two additional statements have been inserted into the operational parameters document previously published on 13 September 2012, with the Solicitation W8475-110004/A Amendment 003. The additional guidance comes as a result of performance modelling and analysis and is supported by multiple industry interactions. At least one Main Operating Base (MOB) per Search and Rescue Region (SRR) is required year-round. It is the FWSAR Secretariat's assessment that this approach does not limit competition. The FWSAR Secretariat is interested in your feedback.

#### DOCUMENT TO DISCUSS THE CONCEPT OF INHERENCY

The purpose of this document is to provide the FWSAR Secretariat's conceptual view on the anticipated split of responsibilities between the Government of Canada and the selected Contractor. It is anticipated that the new FWSAR fleet will incur damage during the course of normal operations. The damage will be characterized either as inherent (anything considered as

the Contractor's responsibility), or as non-inherent (anything that could be attributable to DND). The selected Contractor will be requested to minimize downtime and keep sufficient spare parts to cover any potential damage, including non-inherent damage. Early industry feedback is being sought on the concept of inherency by 5 April 2013.

## QUESTIONS AND ANSWERS

The FWSAR Secretariat has prepared a document titled "**Questions and Answers**" to provide clarifications sought by Industry.
