- (b) An evaluation team composed of representatives of Canada will evaluate the offers.

1.1 Financial Evaluation

The estimated quantities listed under Annex "B" are for evaluation purposes only and will not form part of any resulting Standing Offer.

The total aggregate offer will be calculated by multiplying the unit price for each line item by the associated estimated usage and summing the values.

Calculation will be applied to each option year of pricing and all periods will be totalled to determine the total evaluated aggregate bid price of the Offer.

M0222T - Evaluation of Price (2010-01-11)

2. Basis of Selection

(M0069T, 2007-05-25)

An offer must comply with the requirements of the Request for Standing Offers to be declared responsive. The responsive offer with the lowest evaluated price will be recommended for issuance of a standing offer.

PART 5 - CERTIFICATIONS

Offerors must provide the required certifications to be issued a standing offer. Canada will declare an offer non-responsive if the required certifications are not completed and submitted as requested.

Compliance with the certifications offerors provide to Canada is subject to verification by Canada during the offer evaluation period (before issuance of a standing offer) and after issuance of a standing offer. The Standing Offer Authority will have the right to ask for additional information to verify offerors' compliance with the certifications before issuance of a standing offer. The offer will be declared non-responsive if any certification made by the Offeror is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications or to comply with the request of the Standing Offer Authority for additional information will also render the offer non-responsive.

1. Certifications Precedent to Issuance of a Standing Offer

The certifications listed below should be completed and submitted with the offer, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Standing Offer Authority will so inform the Offeror and provide the Offeror with a time frame within which to meet the requirement. Failure to comply with the request of the Standing Offer Authority and meet the requirement within that time period will render the offer non-responsive.

1.1 Federal Contractors Program - Certification

(M2000T, 2010-08-16)

1. The Federal Contractors Program (FCP) requires that some suppliers, including a supplier who is a member of a joint venture, bidding for federal government contracts, valued at \$200,000 or more (including all applicable taxes), make a formal commitment to implement employment equity. This is a condition precedent to the issuance of a standing offer. If the Offeror, or, if the Offeror is a joint venture and if any member of the joint venture, is subject to the FCP, evidence of its commitment must be provided before the issuance of a standing offer.

Suppliers who have been declared ineligible contractors by Human Resources and Skills Development Canada (HRSDC) are no longer eligible to receive government contracts over the threshold for solicitation of bids as set out in the Government Contracts Regulations. Suppliers may be declared ineligible contractors either as a result of a finding of non-compliance by HRSDC, or following their voluntary withdrawal from the FCP for a reason other than the reduction of their workforce to less than 100 employees. Any offers from ineligible contractors, including an offer from a joint venture that has a member who is an ineligible contractor, will be declared non-responsive.

2. If the Offeror does not fall within the exceptions enumerated in 3.(a) or (b) below, or does not have a valid certificate number confirming its adherence to the FCP, the Offeror must fax (819-953-8768) a copy of the signed form LAB 1168, Certificate of Commitment to Implement Employment Equity, to the Labour Branch of HRSDC.

3. The Offeror, or, if the Offeror is a joint venture the member of the joint venture, certifies its status with the FCP, as follows:

The Offeror or the member of the joint venture

- a. () is not subject to the FCP, having a workforce of less than 100 full-time or part-time permanent employees, and/or temporary employees having worked 12 weeks or more in Canada;
- b. () is not subject to the FCP, being a regulated employer under the Employment Equity Act, S.C. 1995, c. 44;

- c. () is subject to the requirements of the FCP, having a workforce of 100 or more full- time or part-time permanent employees, and/or temporary employees having worked 12 weeks or more in Canada, but has not previously obtained a certificate number from HRSDC (having not bid on requirements of \$200,000 or more), in which case a duly signed certificate of commitment is attached;
- d. () is subject to FCP, and has a valid certificate number as follows: _____ (e.g. has not been declared an ineligible contractor by HRSDC).

Further information on the FCP is available on the HRSDC Web site.

ANNEX "A"**STATEMENT OF WORK****1.0 SCOPE****1.1 Identification**

This Statement of Work (SOW) identifies the work to be performed in support of the medium and heavy duty truck holdings at CFB Suffield. Support includes but is not limited to inspections, services and repair both mechanical and body.

1.2 Background

CFB Suffield holds approximately 30 variants in their fleet ranging from 3 ton stake trucks, dump trucks and highway tractors to field and commercial fire fighting assets, all of which require periodic and or annual inspections in accordance with their respective maintenance schedules, repairs varying in degree of difficulty to both mechanical and body. Variants include but are not limited to Sterling, International, Freightliner, Kenworth, Mack, Volvo, Unimog and Thibault.

1.3 Aim or Objective

To obtain a Standing Offer for the service and repair of the medium and heavy duty variants, in order to promote the expedient repair of our fleet whilst reducing the strain on the repair staff at CFB Suffield during peak periods and heightened activity. Request a 1 year firm Standing Offer with 2 one year options to extend this SOA.

CFB Suffield will conduct its own delivery and pick up of vehicles to the Contractor for service. With limited recovery assets to achieve pick up and delivery for servicing and repair, CFB Suffield requires all services to be available within 60 kms of CFB Suffield's Main Gate entrance.

Where applicable and requested, written certification must be provided to support any inspections performed by the Contractor where Departmental, Provincial or National standards are required. The processing of all work requests will be as follows:

1. The Tech Authority will submit a work ticket to the contractor and request a quote for each piece of equipment requiring work. The request for quote will identify, the problem, what work is requested, and identify the item to be quoted on, make model, etc. Pickup or delivery info will be provided on the request for quote.
2. The contractor will provide a quote for the service, prior to any repairs being done, to the Technical Authority, quoting the work order number.
3. When the tech authority is satisfied with the quote, he will raise a call up for the work to be done.
