Please note that the consultation period on the Standards for the Conduct of Government of Canada Public Opinion Research - Telephone and Online Surveys is being extended to **Friday, May 18th, 2012**.

In addition, we have included new track changes in the Proposal Documentation section (page 3) in the attached draft documents regarding the response rate range. We propose deleting the reference to the response rate range of 10% and replacing it with the following:

*State the expected response rate / participation rate ~~(range of 10%)~~ for the sample(s).
State expected response rates / participation rates for each mode when more than one mode is proposed. The expected response rate/ participation rate is an estimation based on various factors such as previous response rates / participation rates, trends etc.*

The consultation has also been posted on PORD's GCpedia website. Please click on the following link to participate in this consultation:
