## **MAKE THE FOLLOWING AMENDMENTS TO THE ABOVE REQUEST FOR A SUPPLY ARRANGEMENT**

The questions and answers are as follows:

**A) Question 1:**

Part 3, Section I, 2), 5.: CV summaries: Do we have to include CV summaries for optional personnel (hydrogeologist and geotechnician)? This can take up approximately 1 of the 25 pages we are allowed. This would put us at a disadvantage with regard to the text if I had to include them while consultants who do not have this type of personnel do not have to do so.

**Answer:**

As specified in the tendering document: "For personnel experience, the Consultant must also provide, in an appendix, the CV of at least one person for each category of personnel. CVs will not be counted in the maximum number of pages. For the optional category of personnel, the Consultant is encouraged to submit the CV of any hydrogeologist or geotechnician directly employed by the Consultant, in order to obtain contracts in that subspecialty [...]."

Consultants who would like to submit a CV summary for the optional category of personnel (hydrogeologist and/or geotechnician) are invited to include it along with the complete CV in an appendix so it is not counted in the maximum 25 pages.

---

**B) Question 2:**

Part 6. B. 2.2 and 3.2.2: From the way the table is set up, it seems that we will always be competing against the same consultants, especially if the total number of qualified consultants is a multiple of three. I know that two other invited consultants are usually added (section 2.2) but we will always know 50% of those who we are competing against. It seems to me that it goes against the current trend in engineering and construction to always have a bit of an idea of who you are bidding against. Wouldn't a draw at the end of each round be better for everybody, with an obligation to disclose it to the consultants once the round is over?

**Answer:**

The proposed process is adequate because companies are invited to bid according to the same schedule, and a minimum of five companies will bid each time on proposals for contracts between \$15,001 and NAFTA.

**C) PART 3 - ARRANGEMENT PREPARATION INSTRUCTIONS, Section 1: Technical Arrangement, 2) Specific Requirements for Proposal Format, article 6 is amended as follows:**

6. For personnel experience, the Consultant must also provide, in an appendix, the CV of at least one person for each category of personnel. CVs will not be counted in the maximum number of pages. For the optional category of personnel, the Consultant encouraged to submit the CV of any hydrogeologist or geotechnician directly employed by the Consultant, in order to obtain contracts in that subspecialty. A company that does not have or employ such specialists will not have its proposal rejected.

Consultants who would like to submit a CV summary for the optional category of personnel (hydrogeologist and/or geotechnician) are invited to include it along with the complete CV in an appendix so it is not counted in the maximum 25 pages.

**ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.**
